Extensions Strip v1.2
To personalize Extensions Strip, open Extensions Strip Control and click on the "Register this copy" button. In the dialog that appears, enter what you like into the name and/or company fields. There is no registration code for Extensions Strip. Instead of a code, a "trick" is used. The registration trick is: (1) Turn on balloon help. (2) Click three times in the code field while holding the option key down. (3) Click on the OK button.
