1.4 Some words to the authors of the Libraries

```
                In the last time I found some libraries, with the same ↩
                   name
but different authors and different functions.
But here is a problem for all users of these libraries.

Kai Hofmann (Author of
         »date.library«
        ) has an inspiration
to register the names of the libraries.

In his opinion we need a Library Naming Guideline or
a central Register Place, to solve this problem.

    !!!
         Register the name of your library.
          !!!
```

1.5 Register the name of your library

```
                      Select your language!

            [*]  Catalan
            [-]  Danish/Dansk           - not available at this moment
            [*]  English
            [-]  Finnish/Suomi          - not available at this moment
            [*]  French/Français
            [*]  German/Deutsch
            [-]  Hungarian/???          - not available at this moment
            [-]  Icelandish/Island      - not available at this moment
```

```
                [*]  Italian/Italiano
                [-]  Luxembourgish/???      - not available at this moment
                [-]  Nederlandish/Dutch     - not available at this moment
                [*]  Norwegian/Norsk
                [*]  Polish/Polski
                [-]  Portuguese/Português   - not available at this moment
                [*]  Serbian/Srpski
                [-]  Spanish/Español        - not available at this moment
                [-]  Swedish/Svenska        - not available at this moment
                [-]  Welsh/Cymraeg          - not available at this moment

                          Registration form

   If your language is not available at this moment, so translate the
   »LibGuideline.english« file and send the result to me please.
   So i can include the result in the next release of »LibGuide«.

-------------------------------------------------------------------------

 There have been numerous Workbench versions from V1.1 to V3.1 and each one
 has had some updated libraries with the upgrade.
 Workbench 1.2 and 1.3 were upgraded many times by Commodore.
 Workbench upgrades from V2.0 thru V3.1 have many Libraries added, deleted
 or moved into Kickstart ROM.
 Generally it is GURU time or very unstable operation to use OS Libs for
 any other version of the OS than they were intended for !!!

 There seems little reason in listing Libs that are in Kickstart ROM since
 the user cannot update those Libs without upgrading the Kickstart ROM and
 Workbench OS...

Vxx.x were normally associated with the OS identified as follows:
-------------------------------------------------------------------------
V31.x = OS 1.1 = A1000
V33.x = OS 1.2 = A500, A2000, avail for A1000
V34.x = OS 1.3 = A500, A2000, A2500, A3000 (KickROM's), avail for A1000
V36.x = OS 2.0 = A3000, avail for A500, A2000, A2500
V37.x = OS 2.0 = A3000, avail for A500, A2000, A2500
V38.x = OS 2.1 = A500+, avail for A500, A2000, A2500, A3000
V39.x = OS 3.0 = A1200, A4000
V40.x = OS 3.1 = A1200, A4000, avail for A500, A500+, A2000, A2500, A3000

I don't have specific knowledge of Amiga models not listed eg. A1500

      She is the author of the great Version checker "VersCheck".

      She's the only one, who wrote an program to check the versions
      of the system files. And that's specially for my Guides.

      Michaela, thanks for the ability to distribute it with LibGuide.
      Dear reader of this guide, with Michaela's program you are be
      able to check your libraries easilier than before.
      No more slow ARexx scripts. Now it's a full vbcc program.
      Now it's also possible to check the correct versions of
      PPC, WarpOS and AROS versions. (That's the first program which
      will do that.)

      Please respect the hard work of Michaela and download the complete
      VersCheck archiv from Aminet. (util/cli/VersCheck.lha)
      There you will find your special version from 68000-68060.

      Here you can get some
                information
                .

      To Michaela: Many thanks, best wishes and kisses again ;-)

He wrote also a little program for the LibGuide to register
the name of libraries much easier. Its called LibForm.
With his help now it's possible to register a library online.

 TITLE
Lib-Install

 VERSION
43.0

 RELEASE DATE
13.12.1997

 AUTHOR
Kai Hofmann i07m@informatik.uni-bremen.de
            http://home.pages.de/~i07m/

 DESCRIPTION
Lib-Install is an installer script for Amiga shared libraries that is
highly modular to be reusable for other installer scripts.

Lib-Install features:

- Follows the V43 Installer Style Guide
- Correctly supports the different user levels
- Install new/update mode
- Uninstallation
- Supports Installers prior to V43
- Highly automated
- Very flexible
- Very intelligent (for an installer-script ;-)
- Autodetects the CPU/FPU
- Autodetects the OS version
- Autodetects existing files within the distribution archive
- Installs the optimal 68010-68060 binary if available
- It supports the following languages:
  English, German
- Supports source code installation for the following programming
  languages:
  C, Assembler, Amiga-E, Modula II, Oberon, ARexx
- It can be reused by (hopefully) many other Amiga shared libraries
  since the authors of shared libraries need to change only a few
  things:
  * The #copyright variable
  * The #min_os_version and #min_os_revision variables
  * The #language variable
  * The P_CustomExists, P_CustomInstall and P_CustomUninstall
    procedures
  * The 'APPNAME' tooltype within the Lib-Install icon

Short:        Finds libraries,... used by prg and more
Author:       Xavier.Billault@ramses.fdn.org
Uploader:     Ludovic.Billault@InfoRoute.cgs.fr
Type:         util/app
Distribution: FreeWare

One day, I wanted to cleanup my LIBS: directory. But, what libraries
could I delete ?? So, why not write a program that could help me in this
hard task.

Then, this wonderful program lets you :

   - know resources used by one or more executable(s)
   - know programs that use one or more resource(s)
   - know available resources in your computer :-)
   - clean your LIBS: directory

Please contact me if you have any idea for this software
or if you have some troubles.
