Contents

1 Introduction 1

2 Converting word processor files 3
Converting existing files 4
Preparing files for conversion 7
Setting conversion options 8

3 Spell-checking and thesaurus 11
Spell checking text 11
Using the thesaurus 17

4 Design-Time Controls 19
New Window Button 21
Shopping Cart 22
Site Outliner 27
Toggle button 29
Web Tour 30

5 Editing images 33
Choosing an image editor/viewer 34
Web image basics 35
Introducing PhotoImpact SE 38
Working with files 41
Adding text to an image 43
Web image tricks 45

6 Creating projects from templates 53
Creating a project 53
Configuring the Site Template wizard 54
Using the configuration file 55
Sample configuration file 56

7 Using macros 59
Creating macros 60
Running a macro 62
Changing a macro accelerator 63
Deleting a macro 63
Saving and loading macro files 64

8 Shortcut keys 65
File commands (Editor) 66
Editing commands (Editor) 66
Switching between views and display modes (Editor) 67
Inserting, deleting, and moving text and markup (Editor) 67
Formatting characters (Editor) 68
Formatting paragraphs (Editor) 69
Moving around in a document (Editor) 69
Moving around in tables (Editor) 70
Making and extending selections (Editor) 70
Choosing menu items (Editor and Information Manager) 71
Moving between windows and dialog boxes 72
Navigating in a dialog box (Editor and Information Manager) 72
Working with projects (Information Manager) 74
Working with files (Information Manager) 74
Changing views in the Link panel (Information Manager) 75
Navigating in the Project panel (Information Manager) 75

9 Using cascading style sheets 77
Using the cascading style sheet editor 78
Attaching cascading styles to a document 80
Setting a cascading style for an element 82
Classes and IDs 83
Setting style properties 85

Examples of simple styles 93
Cascading styles: Advanced mode 94

10 Visual Dynamic Keyboard 107
Overview 108
The keyboard structure 116
Main keyboard 118
Navigate/Edit keyboard 118
Alphanumeric keyboards 119
Toolbar keyboards 122
Menu keyboards 124
The Desktop Manager keyboard 125
Mouse Control keyboard 126
Special editing keyboards 126
VDK selection methods 129
VDK settings 137

11 Running a local Web server 141
Introducing ZBServer Pro 141
Configuring ZBServer Pro 143
Serving a page 146

12 Setting Editor display options 147
Modifying element display options 148
Saving and loading element display options 149
