1 The Game Record

Black: dong, 6d
White: ishida, NR
Date: 1992-09-08
Place: IGS: 128.32.201.46 6969
Result: W+Resign
ishida(NR) H3?
 Good luck dong

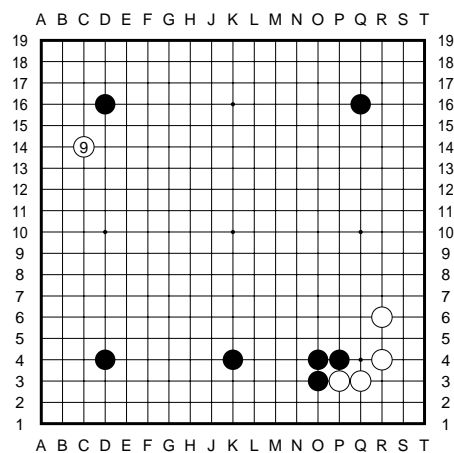

White 1 – Black 6

newone(???) who is ishida ? what chinese characters, if any

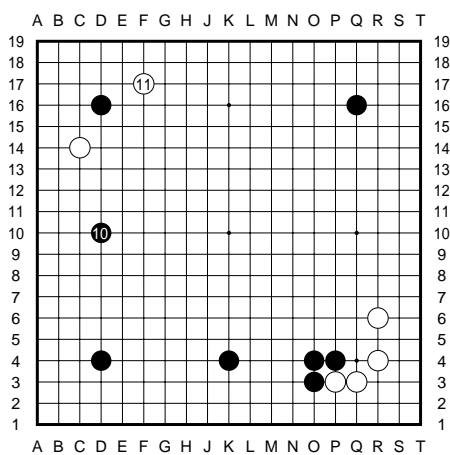

White 7 – Black 8

luxun(2d) stone field

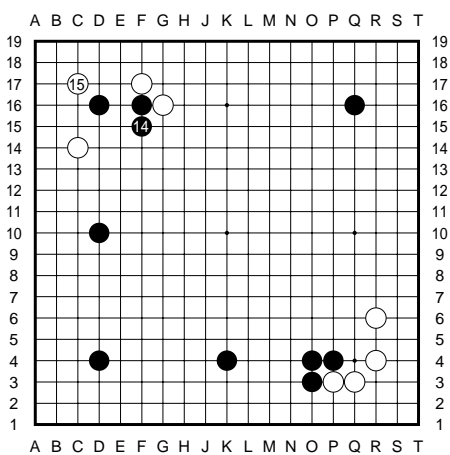

White 9

31k(NR) ShiTian, according to jansteen

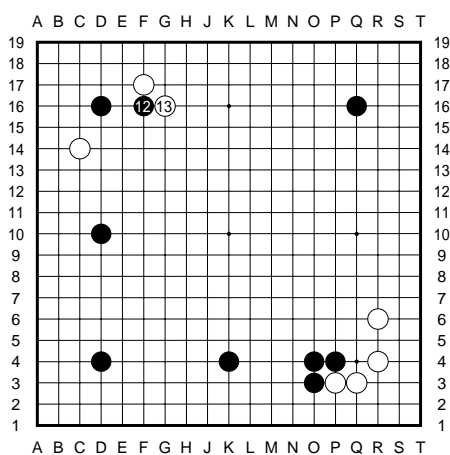

Black 10 – White 11

newone(???) the electrical-brain one ?
luxun(2d) yes
31k(NR) guess so
newone(???) thanks
 boy, IGS is getting famous

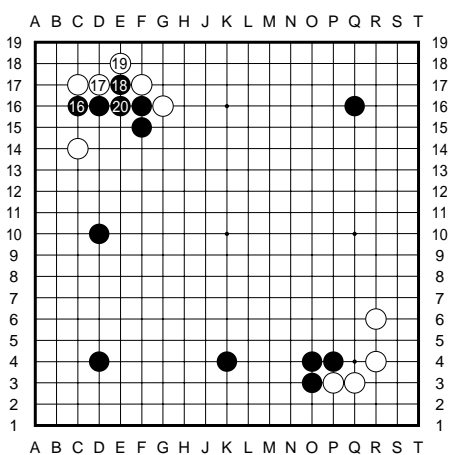

Black 14 – White 15

newone(???) he is not in Japan ?
 p3 is interesting for h3 game
ivan(2k) hes's in Holland
31k(NR) should be in europe for the meijin games.

Black 12 – White 13

31k(NR) jansteen's credit.

Black 16 – Black 20

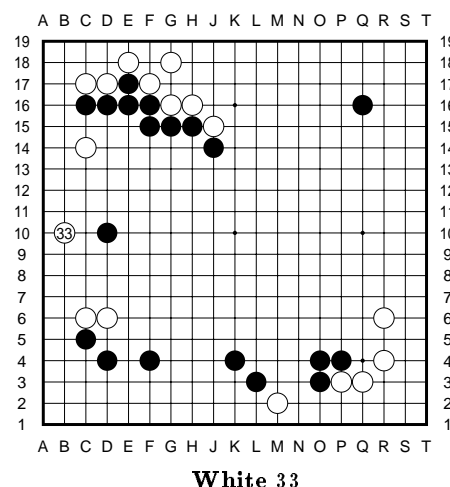

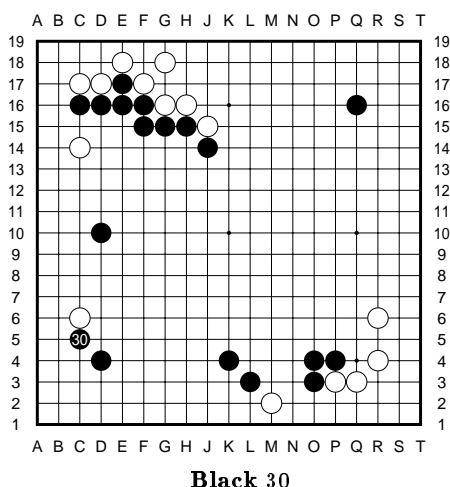

lirj(NR) P3 is his style.

Black 28

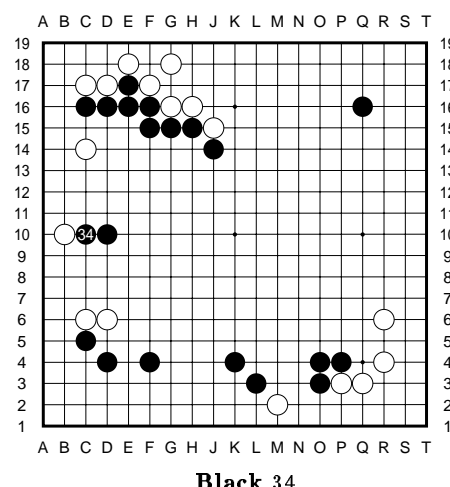

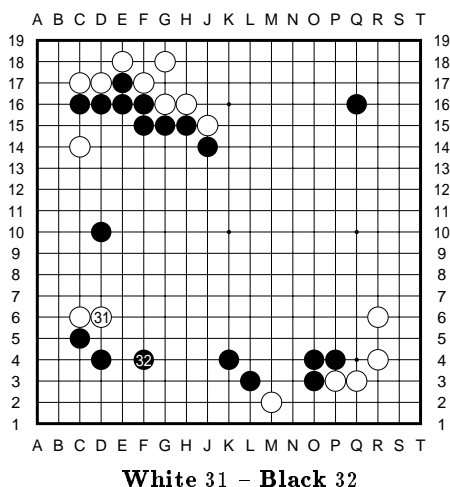

Black 24 – White 27

White 29

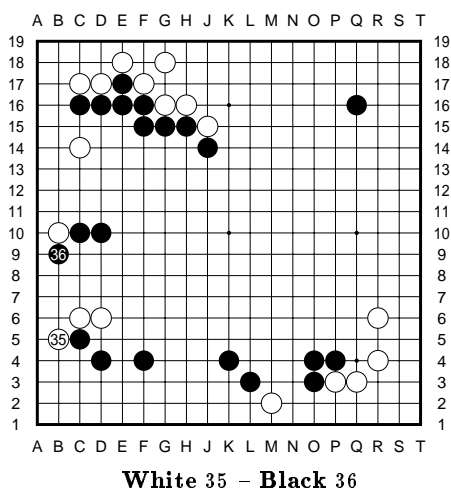

newone(???) sounds like u guys are all 9p :)

newone(???) OOps
lzy(???) another typical trick move!

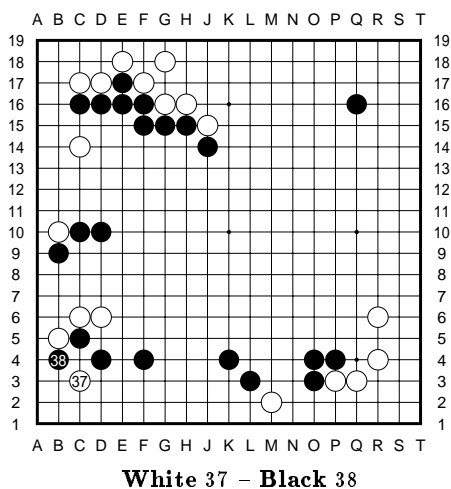

newone(???) c10
GoDuck(2d) that's what you got to be when
 you kibitz a 9p

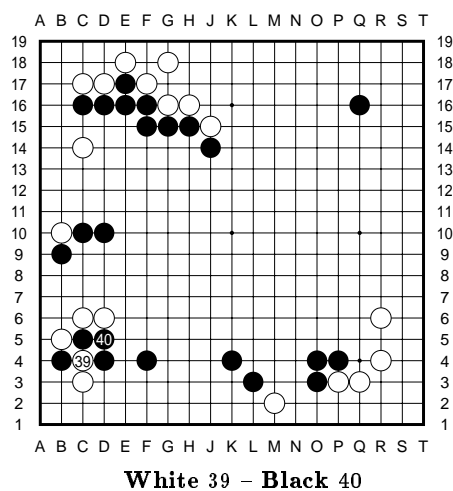

jpx(NR) what is ishida in chinese?

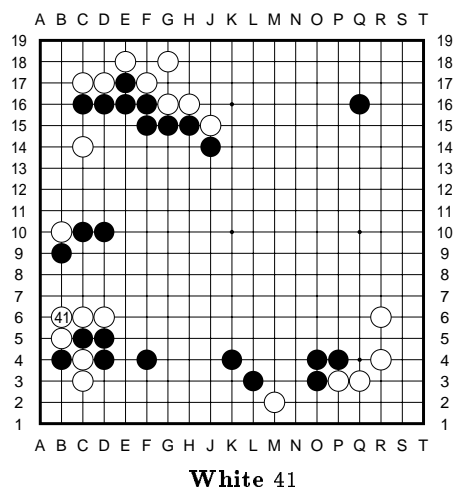

GoDuck(2d) there are 32

newone(???) hi, jpx, u r back

lzy(???) b should response b5

jpx(NR) yeah, I didn't go away.
youping(4d) bitz ishida in chinese is Shi Tian.
lzy(???) b has good da4 ju2 guan1!!!
jpx(NR) thanks.
newone(???) what's da4 ju2 guan1!!!
et(3d) Which Ishida is he?
newone(???) so called computer-brain
et(NR) Thanks
ishida(NR) dong Hi (jansteen), what's your
 real name?

lzy(???) global sense.

lixj(NR) if w got lower-left corner big, b
is not going to have enough.

newone(???) ic, thanks

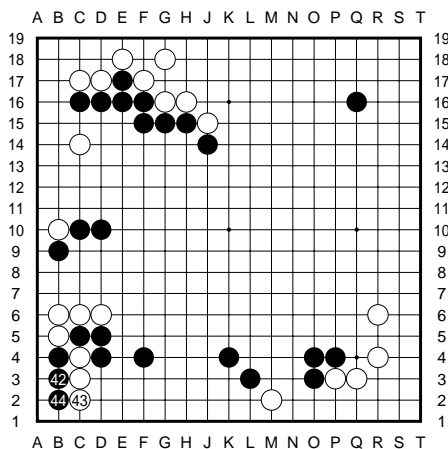

dong(6d) i am from Beijing

jpz(NR) so dong is more suitable to him.

ishida(NR) Thanks

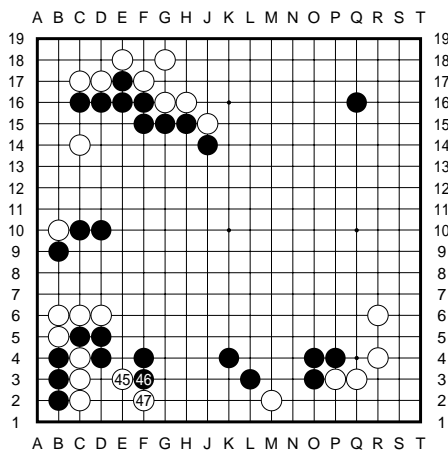

newone(???) but it's not polite to think to long

ishida(NR) Which city do you live?

Black 42 – Black 44

jpz(NR) really, I though it's not polite to
play thinkless moves. :-)

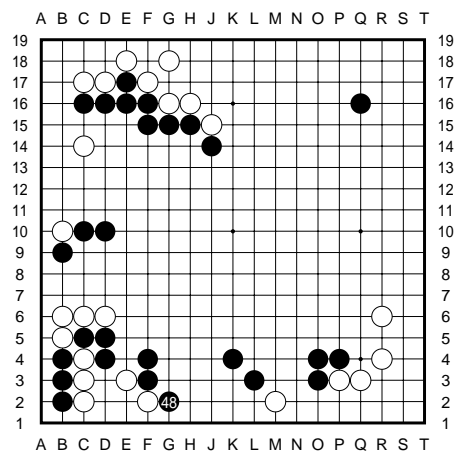

White 45 – White 47

newone(???) seems to me, b is giving away

quickly

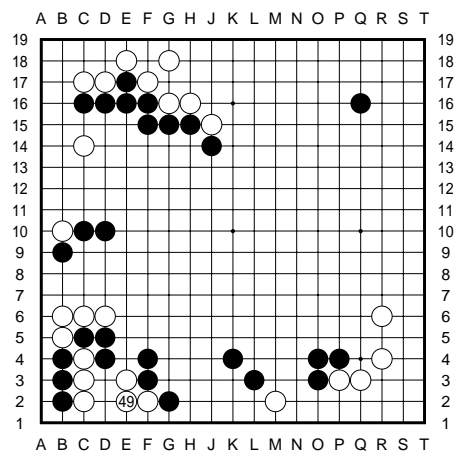

ishida(NR) thanks

Black 48

jpz(NR) like f3 is not a polite move.

should it be e2?

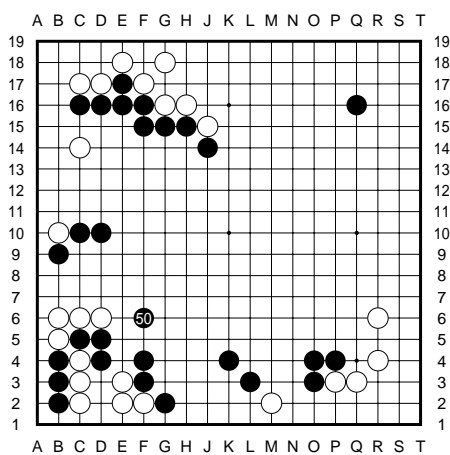

White 49

lzy(???) b still much ahead

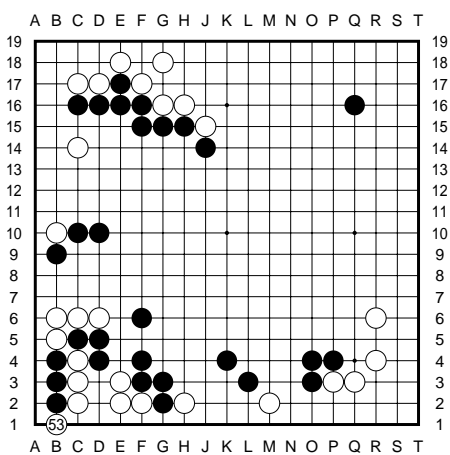

lixj(NR) just too big to give up the corner
like this.

lzy(???) b1

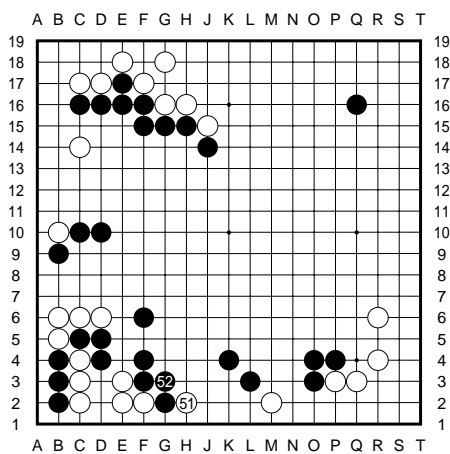

Black 50

lzy(???) the corner is not dead if b b1
newone(???) w has g3

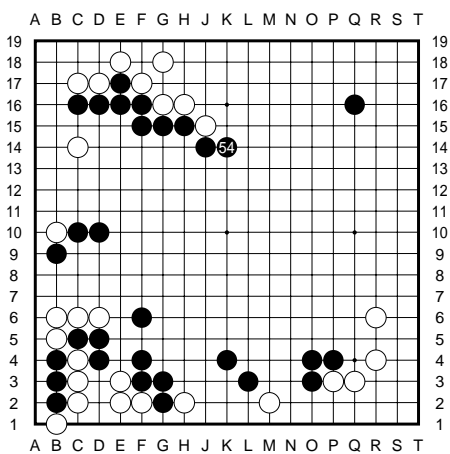

White 53

newone(???) gs works
lixj(NR) K14.

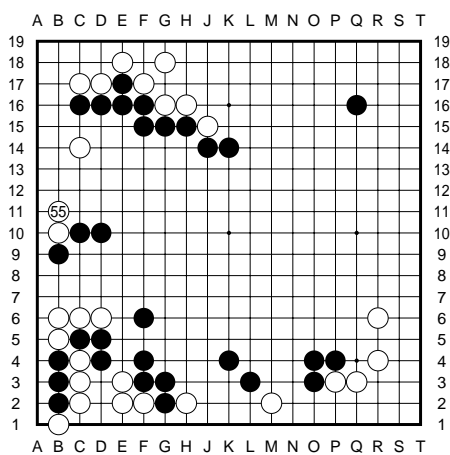

White 51 - Black 52

GoDuck(2d) g3 doesn't work but h2 does

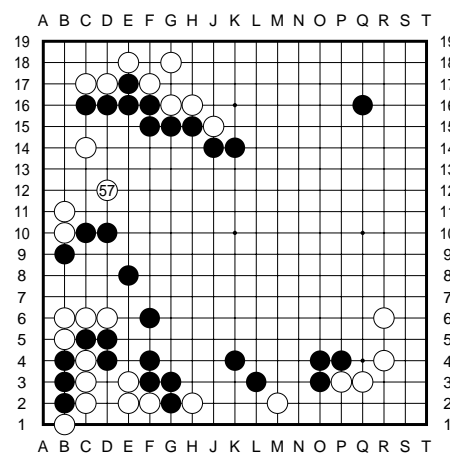

Black 54

newone(???) g3, i mean

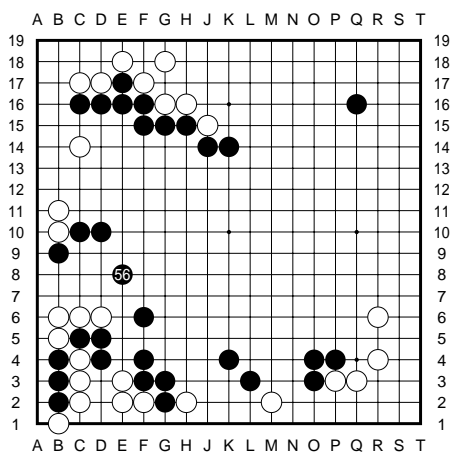

White 55

GoDuck(2d) good call lixj

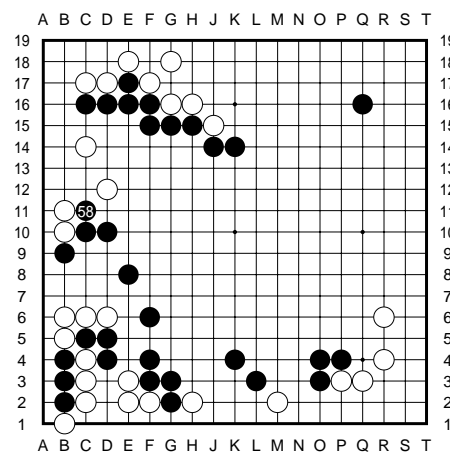

White 57

opdorp(1d) Yes bn

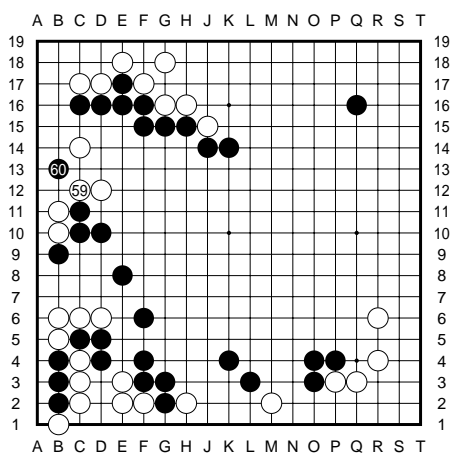

Black 56

lzy(???) b 11 better thankk14.
bn(2k) excuse me, (I just come in),
 isishida a pro?

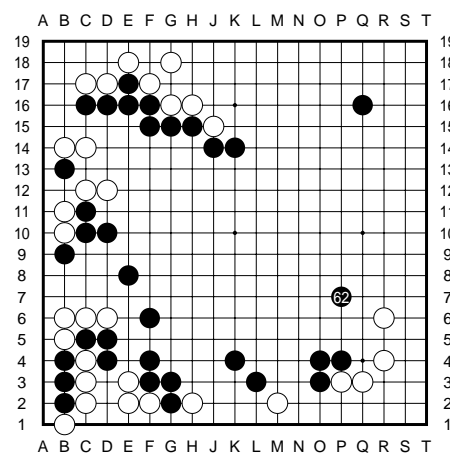

Black 58

newone(???) b13

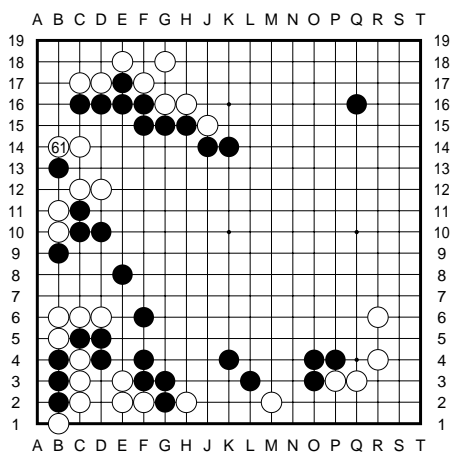

White 59 – Black 60

lzy(???) now black not as comfortable as before.

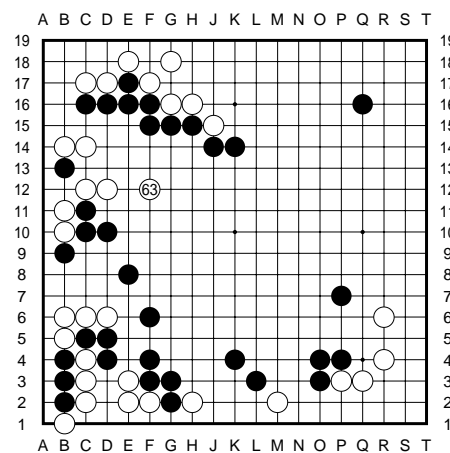

Black 62

newone(???) less than h2 now

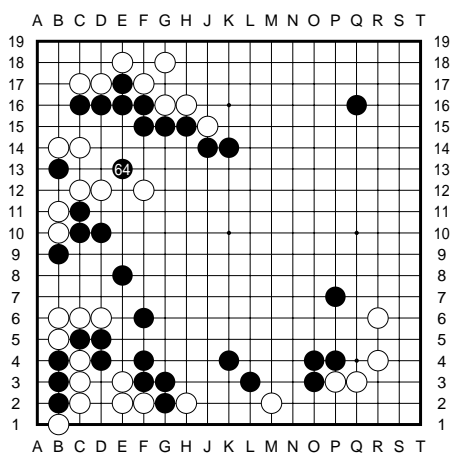

White 61

bn(2k) what is his name in Chinese?
m0184(6d) dong is losing
fei(2d) shi tian fang fu
newone(???) almost gone
GoDuck(2d) playf12 and get the middle
lzy(???) black is still much ahead, but not
as much as h-3.
zilu(5d) could be yi tian
bn(2k) thanks.

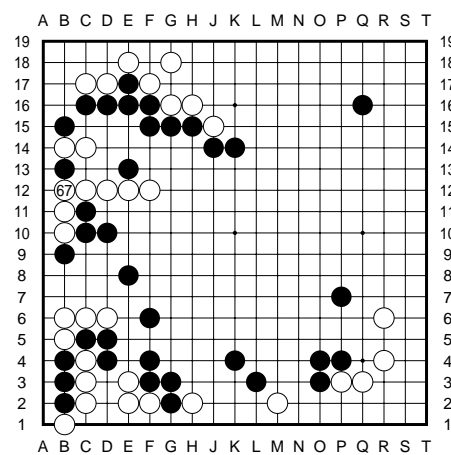

White 63

31k(NR) must be scared. Dong doesn't
seem to play with confidence.
GoDuck(2d) f12 is fairly important
newone(???) can help, it's hard

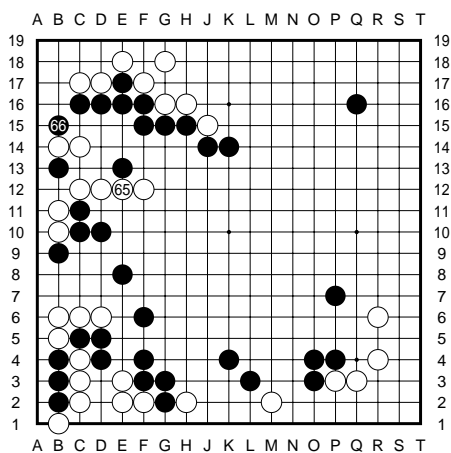

Black 64

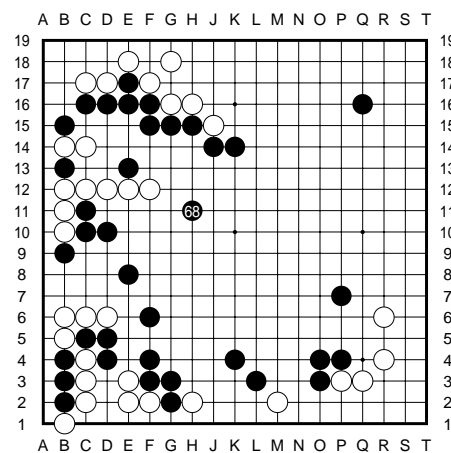

White 67

fmc(7k) good call GoDuck.

newone(???) why e13 ?

White 65 - Black 66

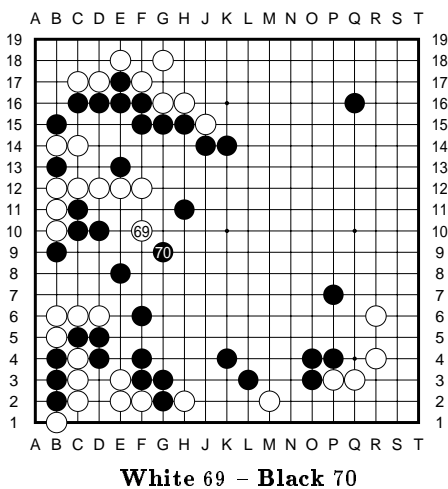

Black 68

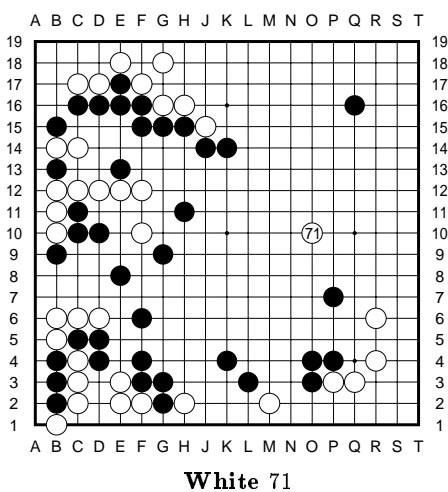

lzy(???) maybe dong plays with TOO
much confidence. but less
concentration!

jpx(NR) now it's hard to kill.

ishida(NR) f10 is the move now

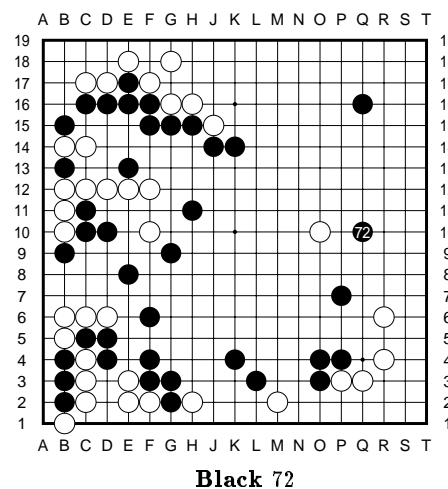

lzy(???) limit eye spaces and help
jpα(NR) ishida is kibitzing
bn(2k) is ishida telling dong where to move??
lzy(???) black has excelent global sense.

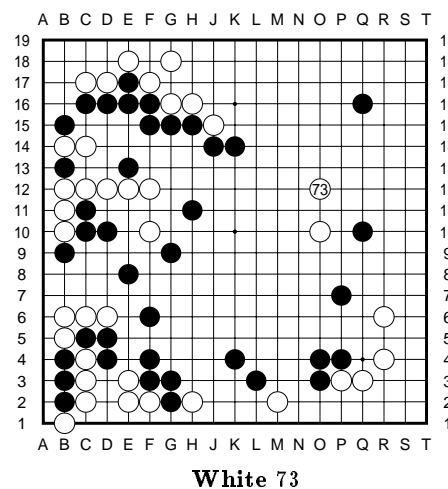

opdorp(1d) no, bn, but while playing you can kibitz, the other player doesn't see. :-)
bn(2k) but if dong has two terminals,...:-)
fm c(7k) who

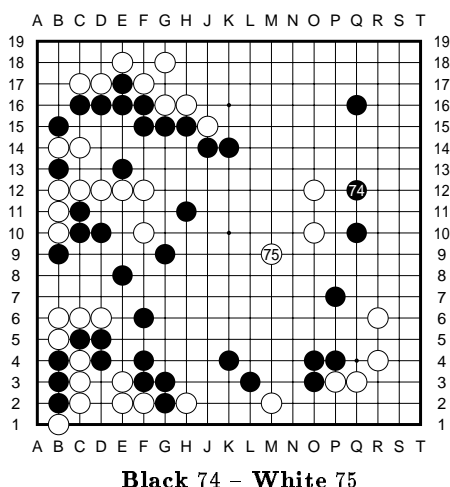

jpα(NR) is w gambling?
luxun(2d) sb did that before

GoDuck(2d) white O10 is difficult to attack

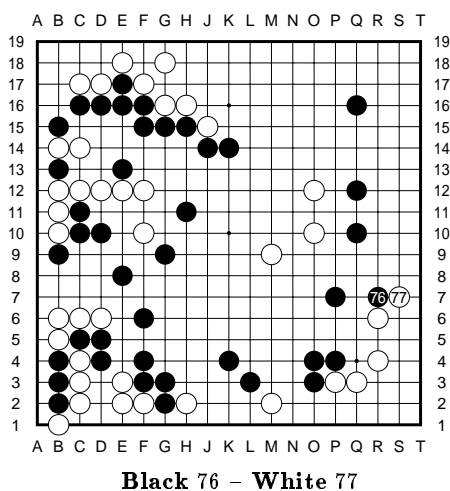

ishida(NR) probably q12 now
lzy(???) o10 is being attacked.

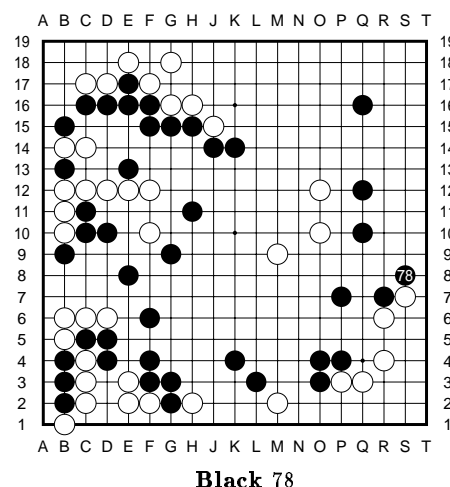

Black 74 - White 75

jpx(NR) o 10 is hard to attack but
combine with d12 group.

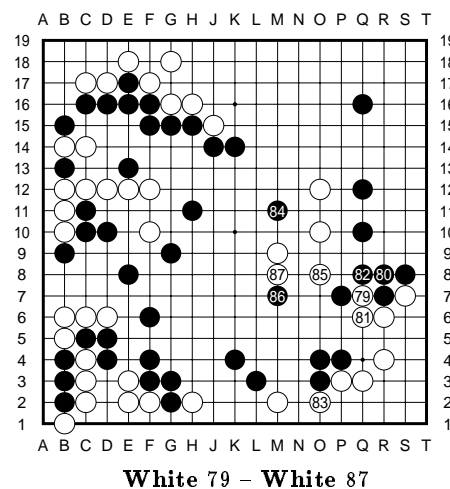

Black 76 - White 77

lzy(???) r7 not biggest.
newone(???) d12 grp is safe

Black 78

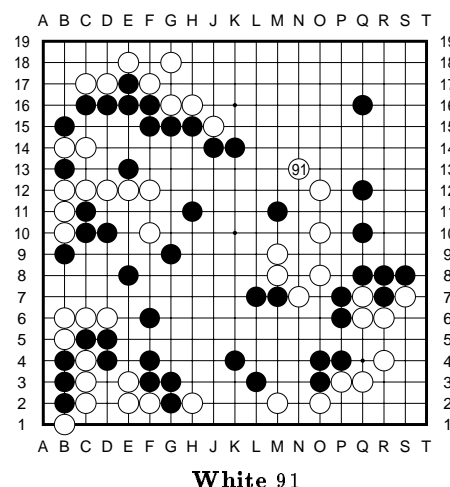

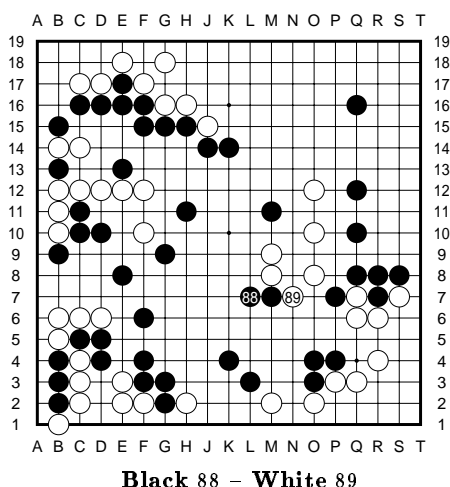

jpx(NR) if b a14?

White 79 - White 87

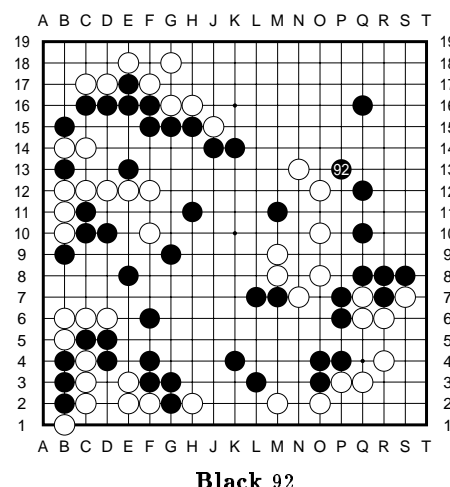

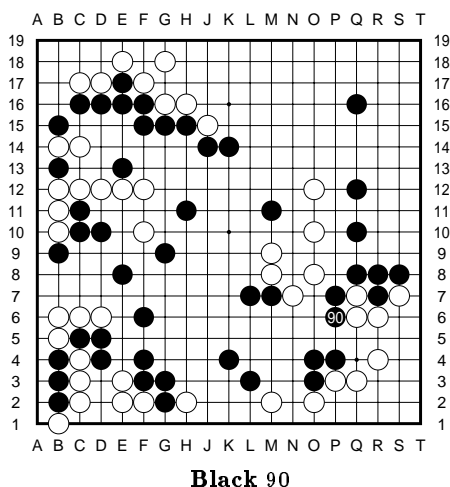

youping(4d) Is ishida operating the computer
himself? or is someone doing it
for him?

lixj(NR) black's attack is futile. should
R16 and wait for chance in the
center.

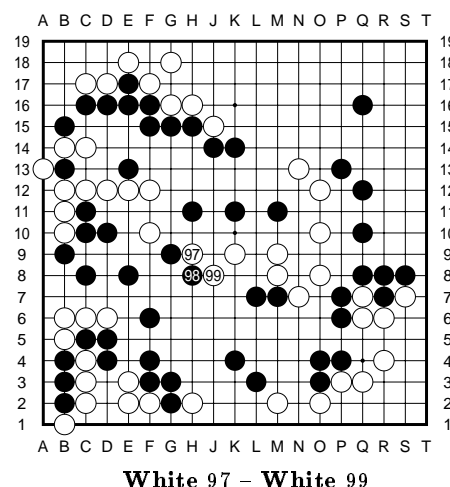

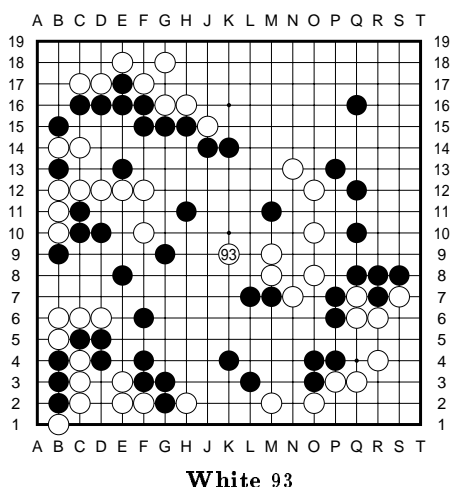

GoDuck(2d) he is from jansteen's account

opdorp(1d) I think jansteen enters the moves,
youping, because he talks dutch
to me :-)

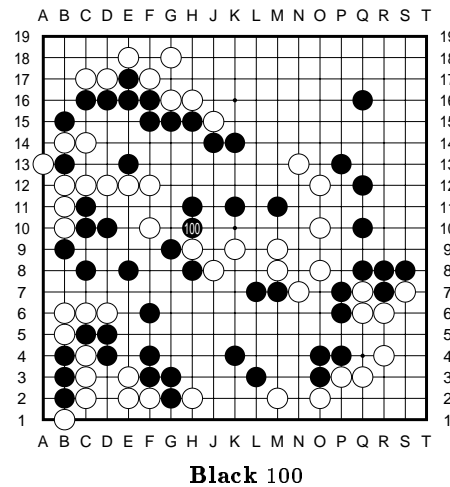

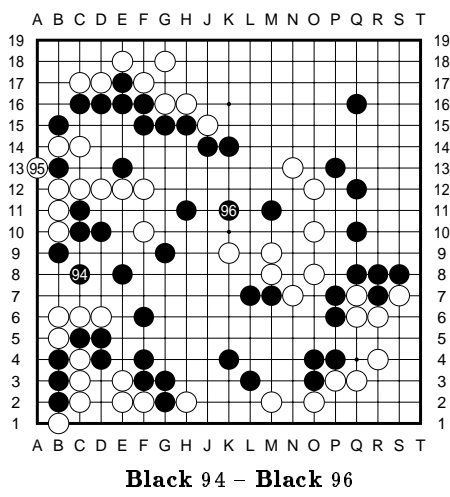

lzy(???) the attacking really effective.

youping(4d) opdorp, Thanks.
newone(???) too bad, have to go

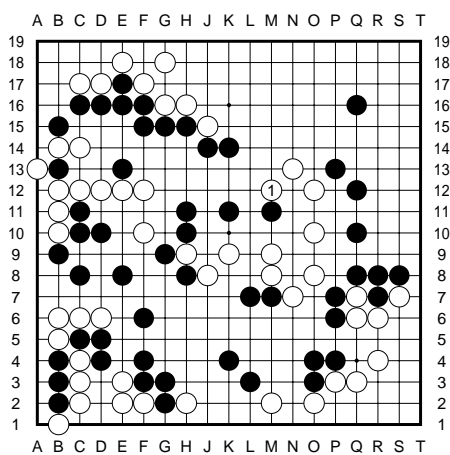

bn(2k) so the mention of f10 is also
 jansteen's opinion?
888(NR) after o10, no change for b!!!!
jpg(NR) if he uses mouse, ishida certainly
 can do it by himself.
opdorp(1d) f10 was ishidas comment i think
 they use a mouse, but with my
 (shaky) client :-)

opdorp(1d) what is 'y c 8'?

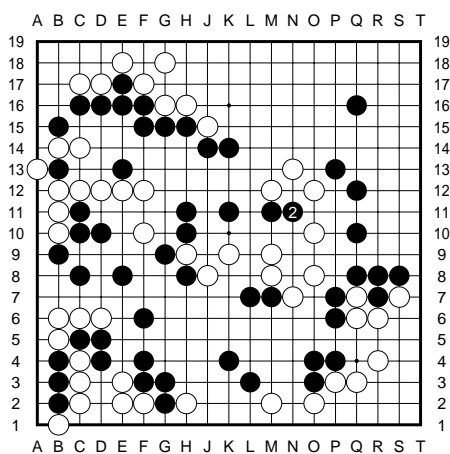

fmc(7k) short for 'why did black played
 C8' :)
GoDuck(2d) why c8 I think
 *smile
opdorp(1d) thanks

jpg(NR) y c 8?

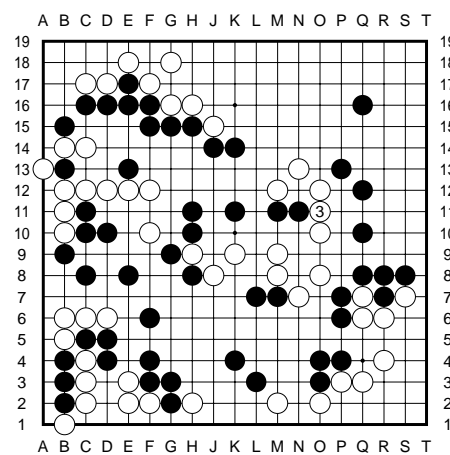

White 101

lzy(???) b would like to make himself
think while attacking.

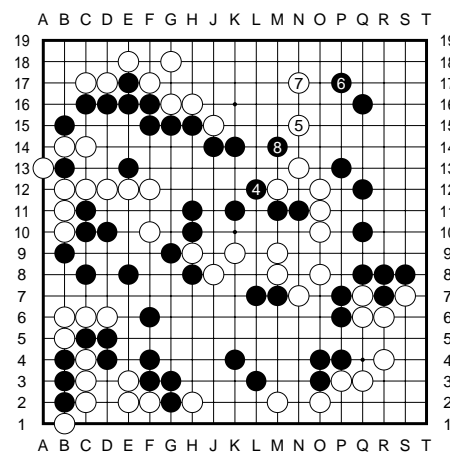

Black 102

lzy(???) sorry

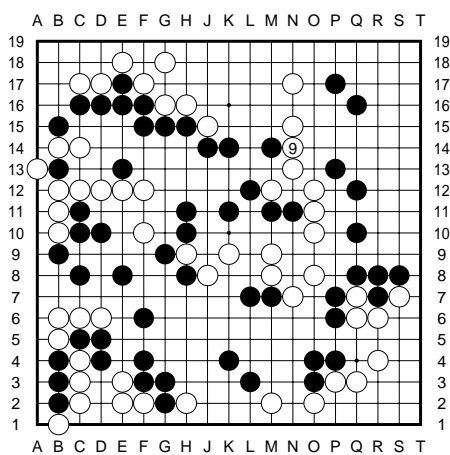

White 103

lzy(???) think=thick

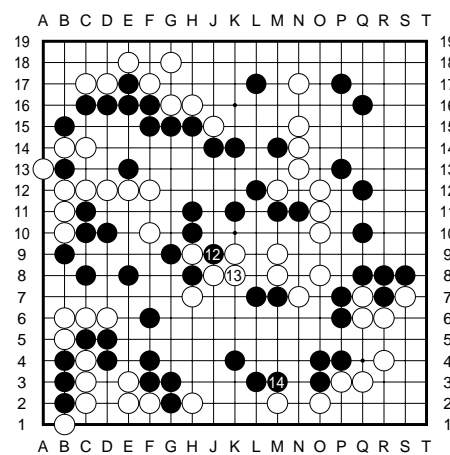

Black 104 - Black 108

jrm(16k) Warning: Receiving stats for an
unknown person

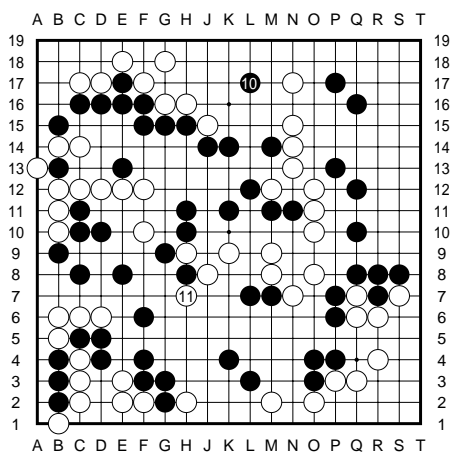

White 109

bn(2k) what? jrm?

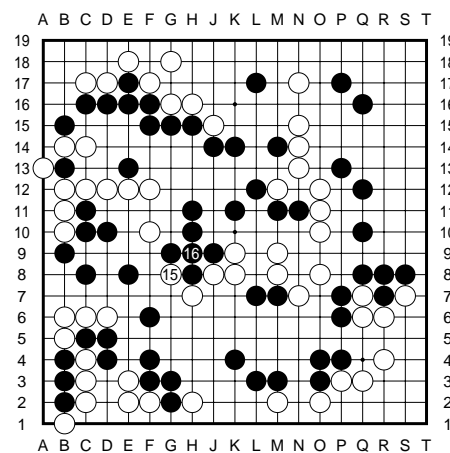

Black 112 - Black 114

lzy(???) ' still leading as an even game.

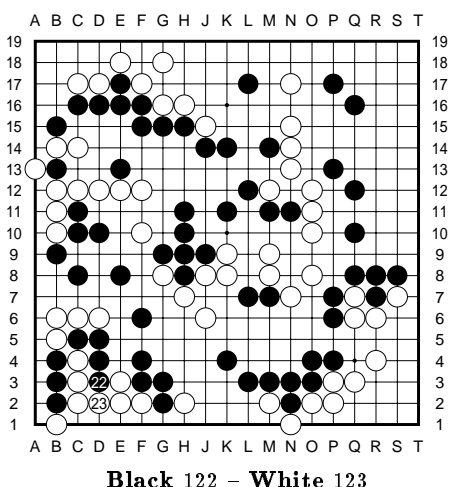

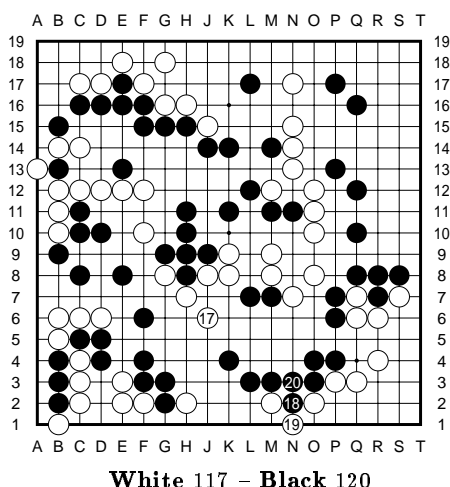

Black 110 - White 111

jrm(16k) sorry, interesting mouse—o.. b still holding lead?

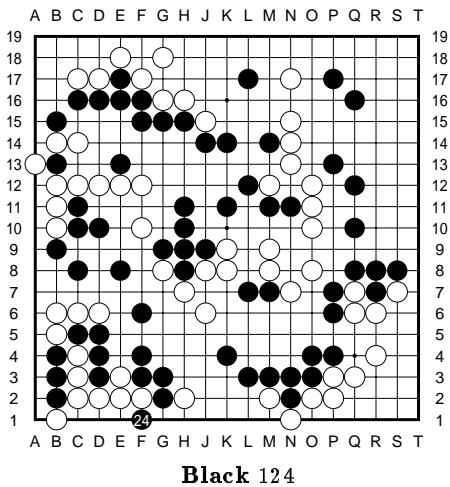

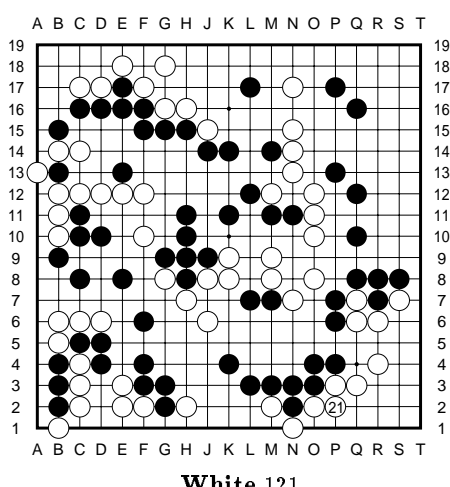

White 115 - Black 116

lzy(???) white has less than forty pts now.

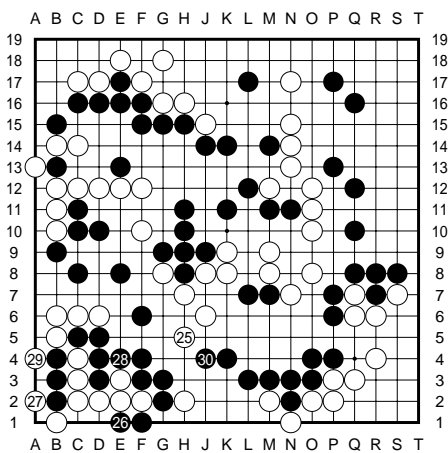

jrm(16k) thanks, hard to tell for sure when
20–30 ranks below players :-)

jpx(NR) should be are :-)

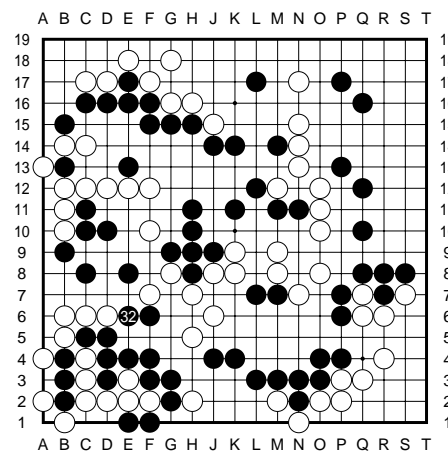

jpx(NR) is these 2 moves too small?

lixj(NR) I guess w is going to enter the
right side.
jpx(NR) fl is not sente.

White 125 – Black 130

Black 132

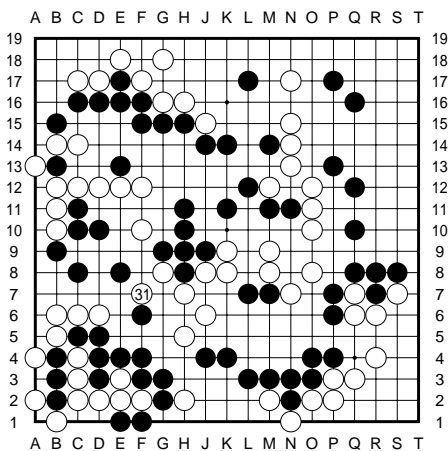

jpz(NR) m5?

GoDuck(2d) guess no

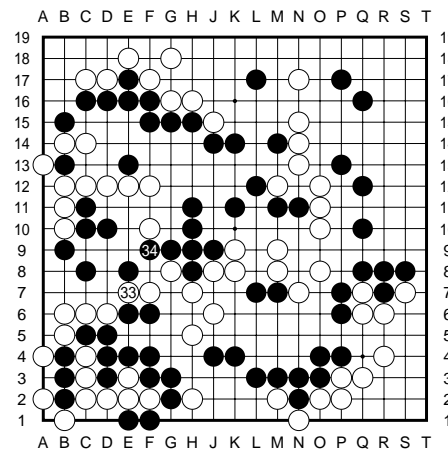

weihe(24k) what's ishida's chinese

pronouciation?

zilu(5d) depends on whether w sente lives
in the center

White 131

White 133 – Black 134

zhuge(NR) hi everyone -- who's better? :)

fmc(7k) guess :)

lzy(???) black still leading

luxun(2d) so active fmc:)

zhuge(NR) thanks... then it's still worth

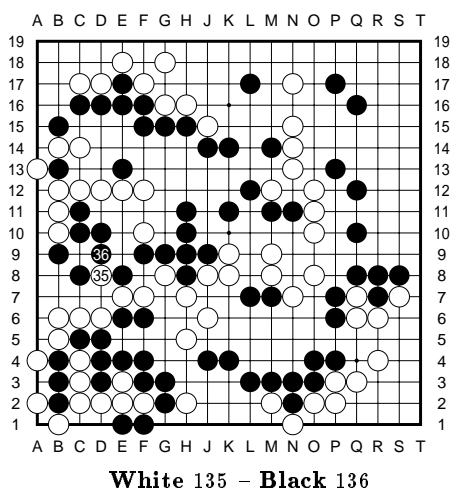

kibitzing. :)

jpz(NR) b in trouble?

fmc(7k) trying to outhink both of them :)

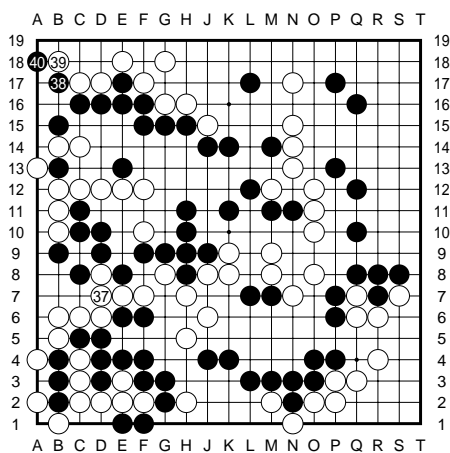

no luck yet :)

zhuge(NR) Shi2 Tian2

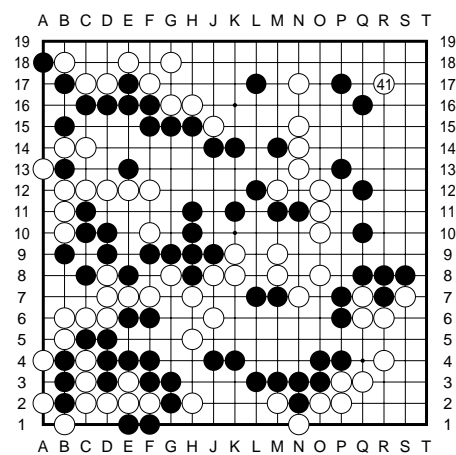

White 135 – Black 136

zilu(5d) yi tian

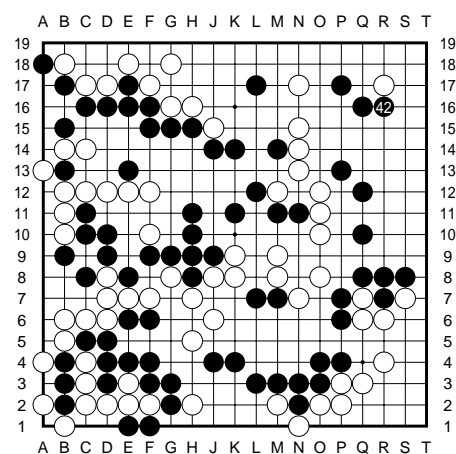

White 137 – Black 140

zhuge(NR) no, yi tian would be 'ida' i think.
sliao(NR) ishida is Shi2 Tian2

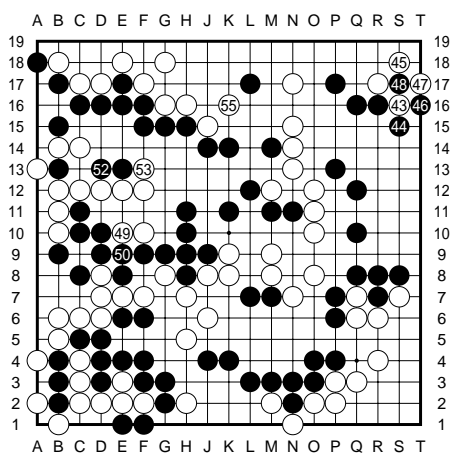

White 141

weihe(24k) u mean shi tian fang fu?
hut(3k) what's his pronouciation of his
 name in chinese?

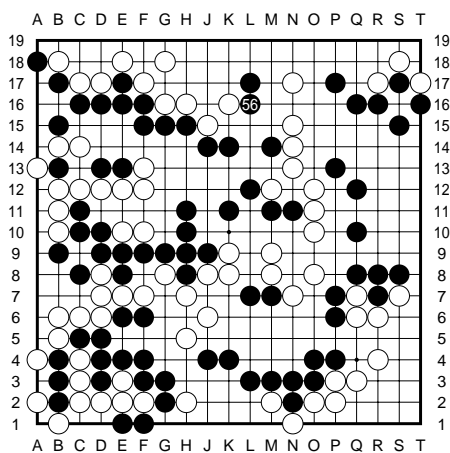

Black 142

weihe(24k) u mean shi tian fang fu?
zhuge(NR) yes.

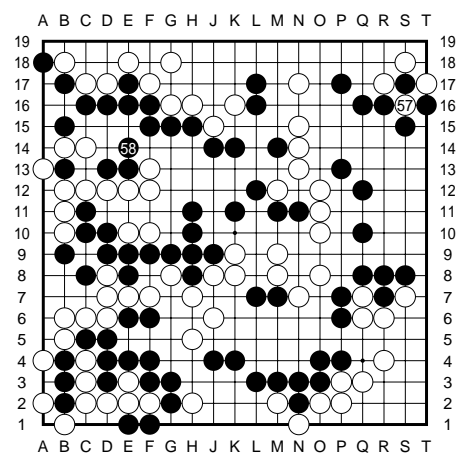

White 143 – White 155

zhuge(NR) ishida should set his rank to 9p now.

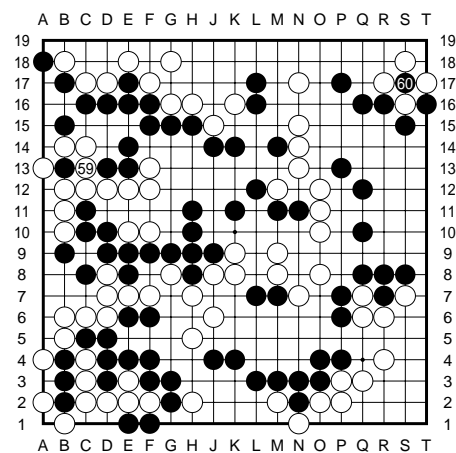

Black 156

tweet(NR) he can't

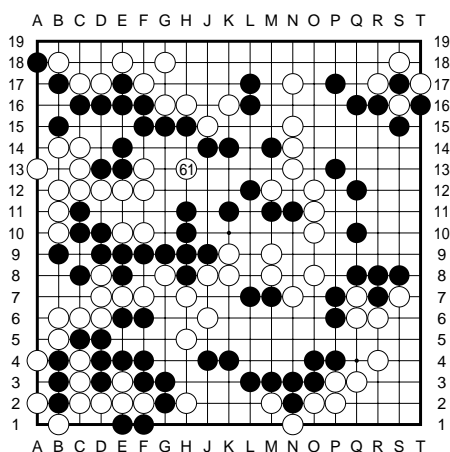

White 157 – Black 158

luxun(2d) why? tweet?

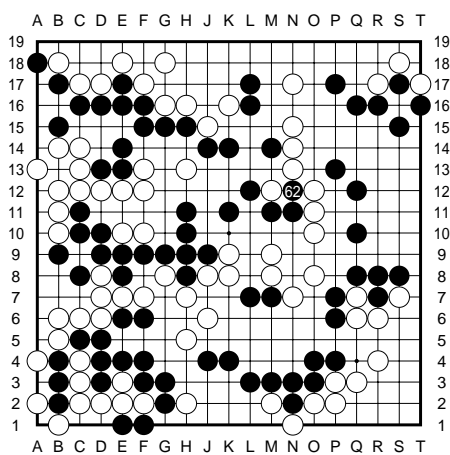

White 159 – Black 160

bn(2k) but you can, tweet.:—)
AshaiRey(8k) Couldn't you tweet ?

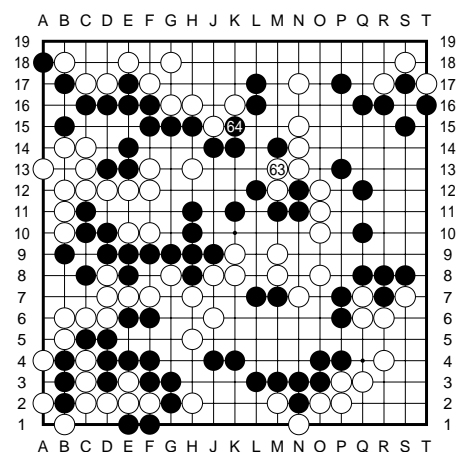

White 161

zhuge(NR) i suggest tweet to kick him out
then set the rank and let him in
again. :)

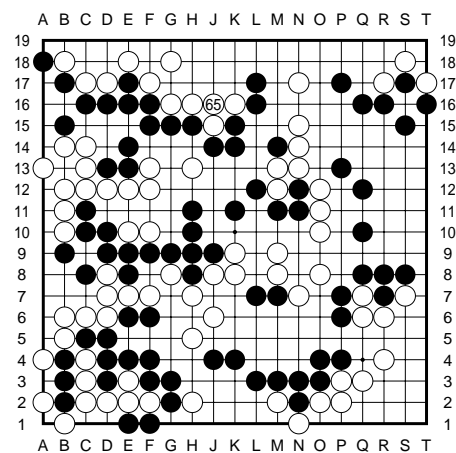

Black 162

jpx(NR) is this a ko?
tweet(NR) only i can set it, but i cannot do
it while he is online.

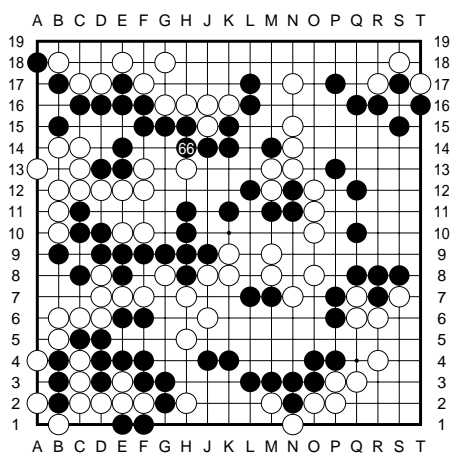

White 163 - Black 164

jpx(NR) can b t18?

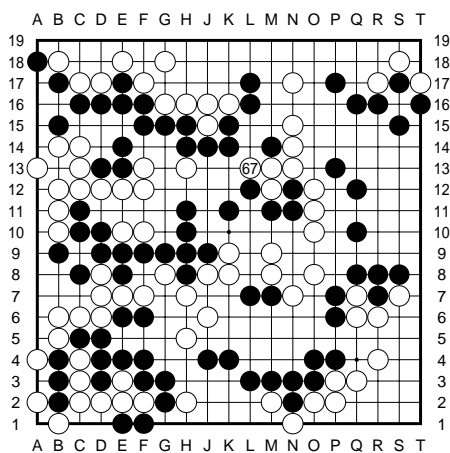

White 165

GoDuck(2d) h14 now and get either o13 or the
corner

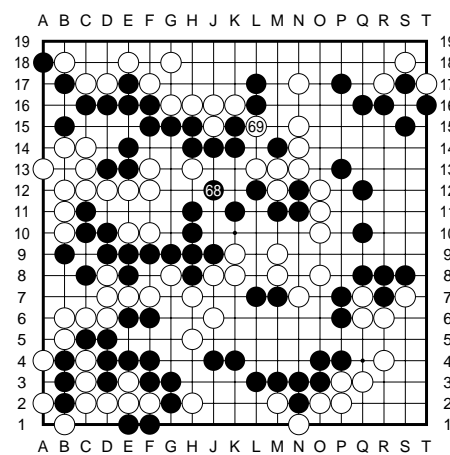

Black 166

jpz(NR) b can t18!

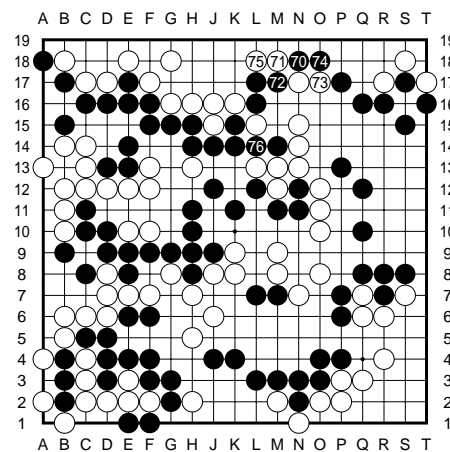

White 167

bn(2k) a cut O13?
GoDuck(2d) cut at l15

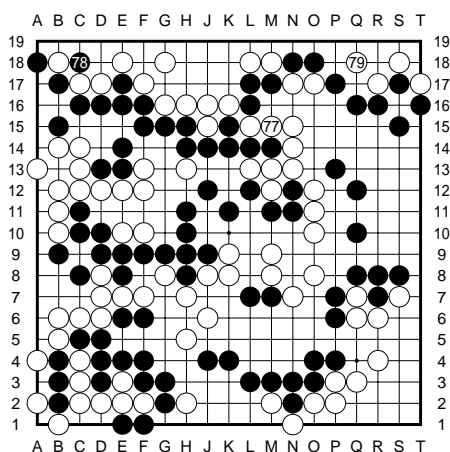

Black 168 - White 169

zilu(5d) b lost so much due to ko fight
 already
lzy(???) e6 is the worst move of black,
 after that white got thickness.

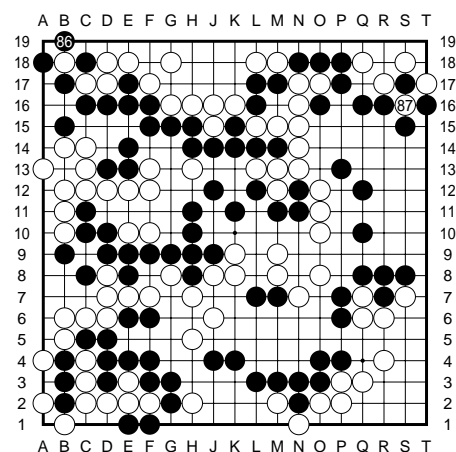

Black 170 - Black 176

lzy(???) black will lose .

White 177 – White 179

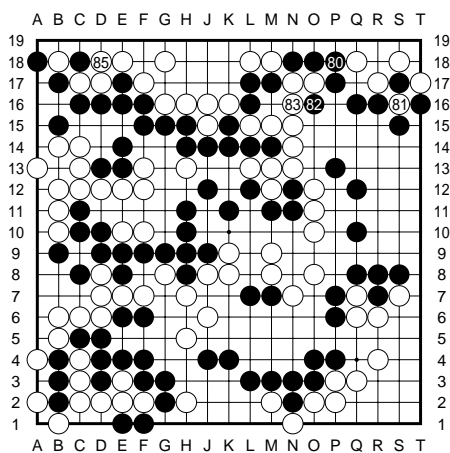

Black 186 – White 187

zhuge(NR) it seems so.

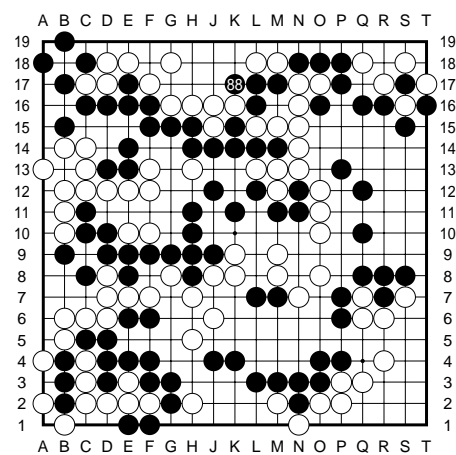

GoDuck(2d) a10?

twh(2d) is ishida in europe now?

tweet(NR) Amsterdam

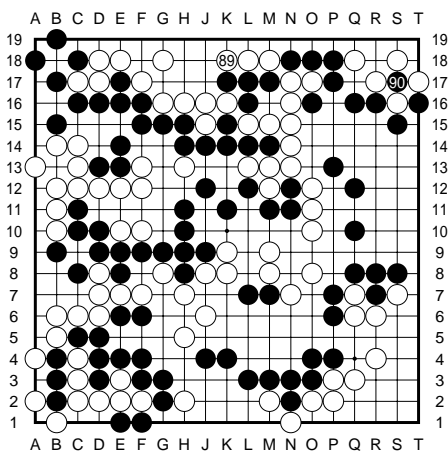

Black 180 – White 185

Black 188

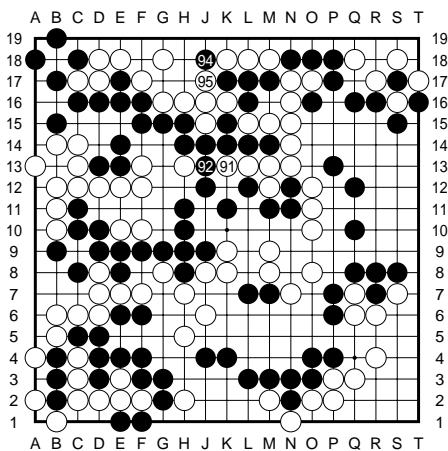

zhuge(NR) so this is the second 9p playing on IGS?

zhuge(NR) in jansteen's place?

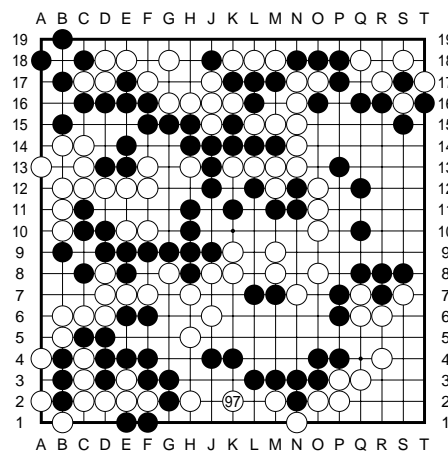

White 189 – Black 190

opdorp(1d) yes

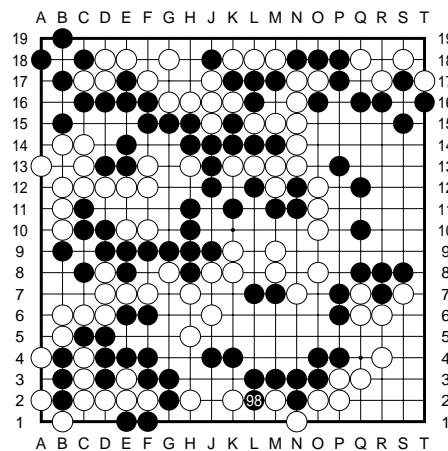

White 191 – Black 196

jrm(16k) There are two 9p listed besides ishida.

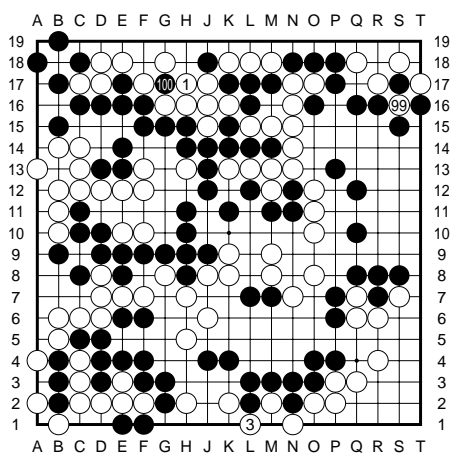

White 197

zhuge(NR) they will play in 3 days.

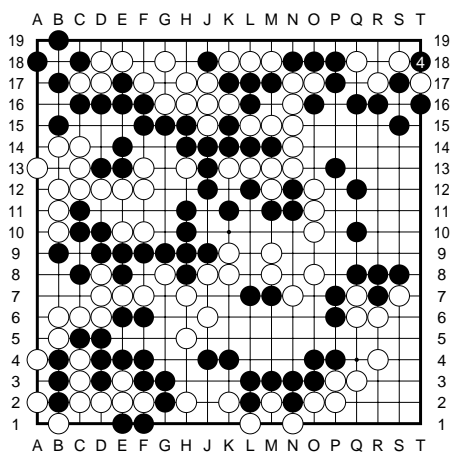

Black 198

jpx(NR) b j17 will have one more threat.

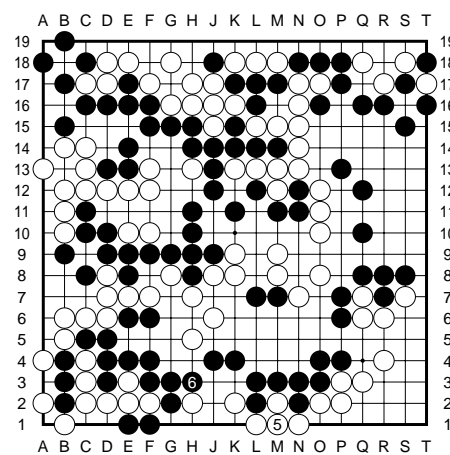

White 199 – White 203

jpz(NR) same, sorry.

Black 204

GoDuck(2d) two ko and get one

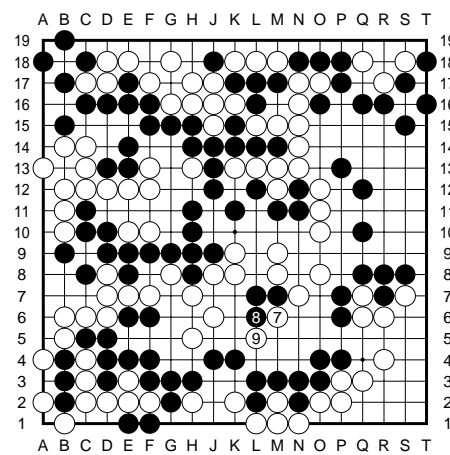

White 205 – Black 206

GoDuck(2d) is the board close?

zilu(5d) j3

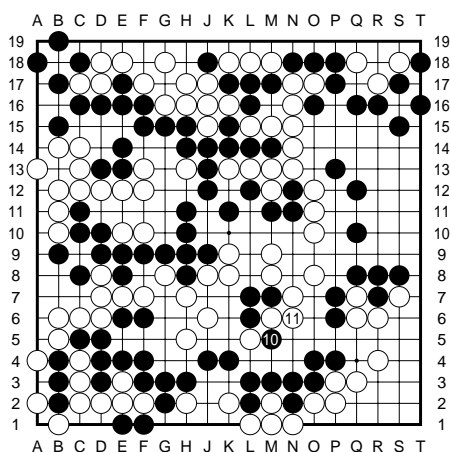

j3 is not a cut

White 207 – White 209

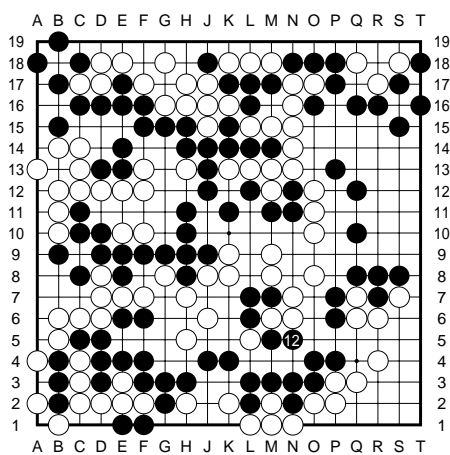

lixj(NR) b doesn't seem to be too bad.

zilu(5d) my terminal miss played one line,
sorry for j3 comments

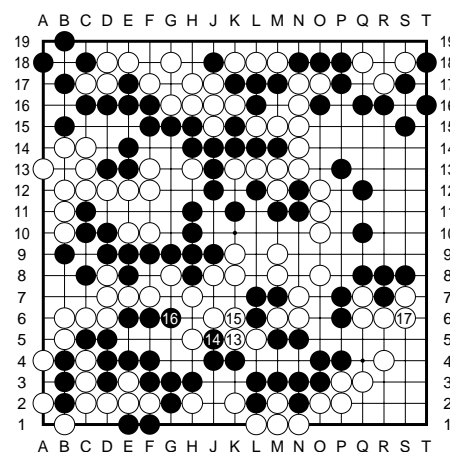

Black 210 – White 211

GoDuck(2d) close I thinks
think
lzy(???) it is close

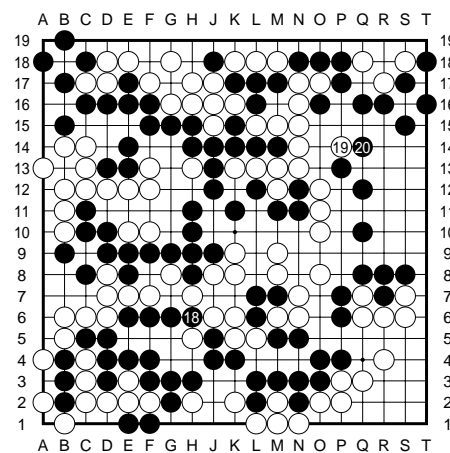

Black 212

GoDuck(2d) ?
jpx(NR) what?
zhuge(NR) dong is proving a new theory on
IGS. :)
jpx(NR) what new theory?
zilu(5d) b is making eyes?

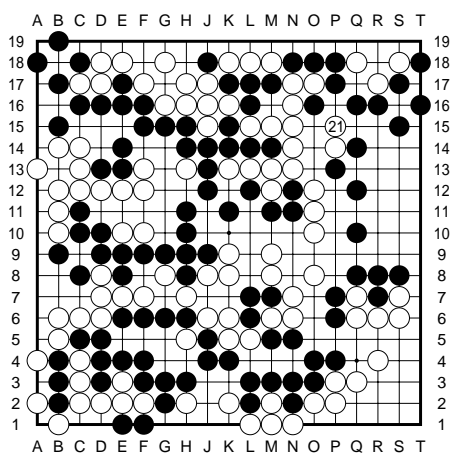

White 213 – White 217

jpx(NR) b has more than a dozen eyes, for
God's sake.

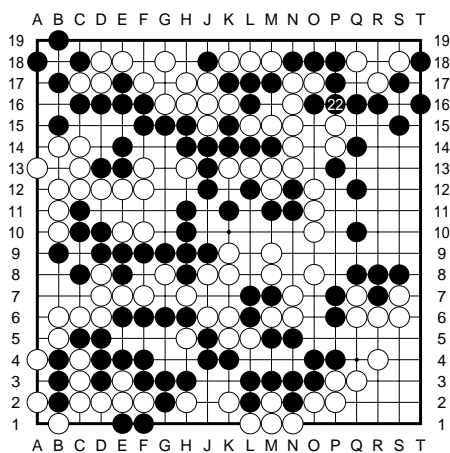

Black 218 – Black 220

zilu(5d) then i don't understand dong's
theory

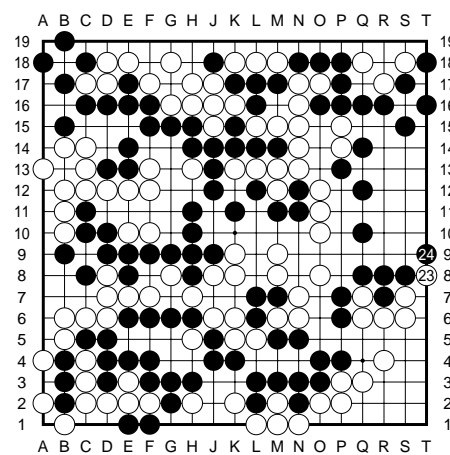

White 221

GoDuck(2d) maybe he counted

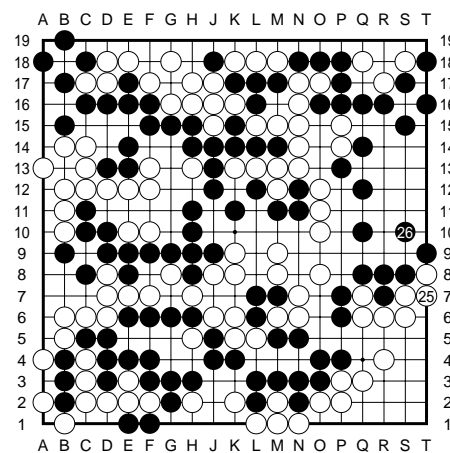

Black 222

bn(2k) we should ask dong later why N5.

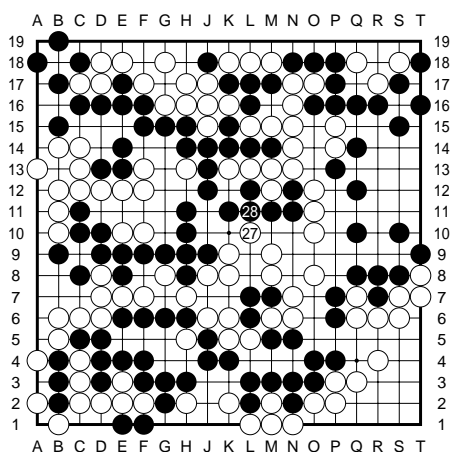

White 223 - Black 224

lzy(???) dong told me n5 was a typo.

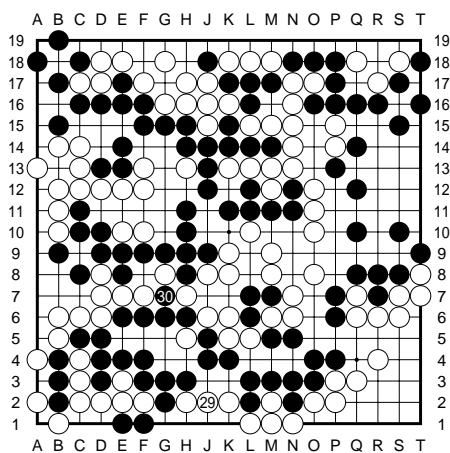

White 225 - Black 226

opt(NR) who is ishida? i just came

White 227 – Black 228

jpz(NR) lzy, what's the count now?

White 229 – Black 230

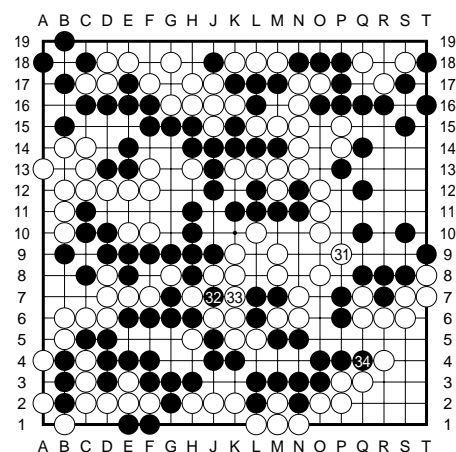

bn(2k) now b should resign.

lixj(NR) b is not enough.

jpz(NR) n19

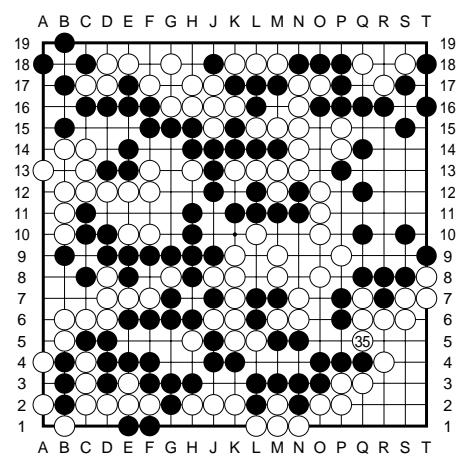

lixj(NR) too bad L6 three stones are gone:—)

GoDuck(2d) black is 5–7ptshort

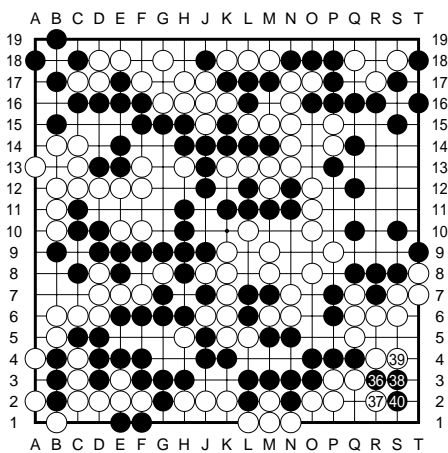

White 231 – Black 234

jpz(NR) b should m19 sente.
zhuge(NR) what happened?

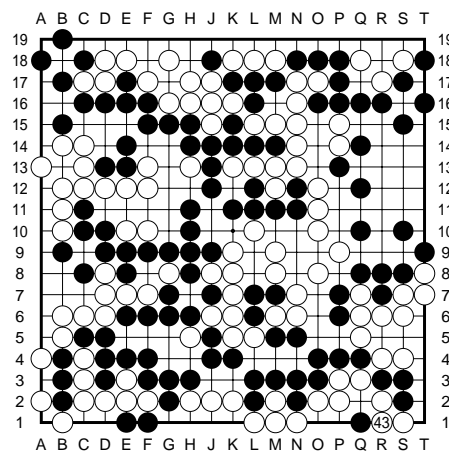

White 235

zilu(5d) it's very close

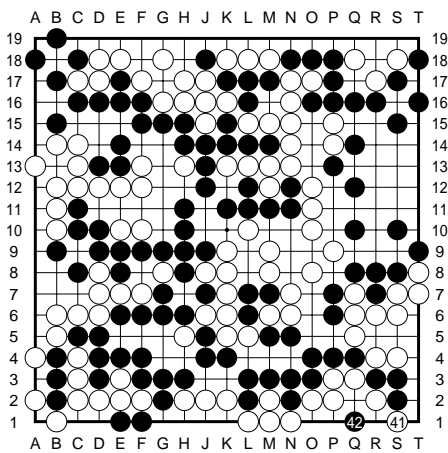

Black 236 – Black 240

jpx(NR) useless

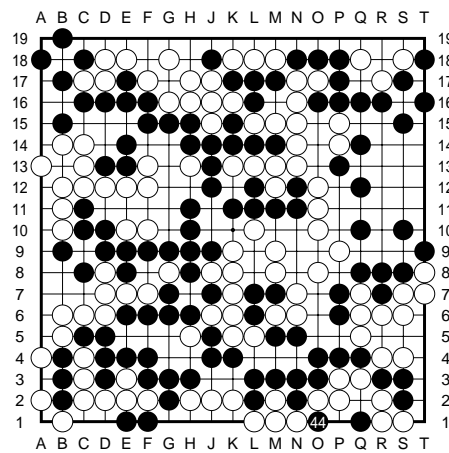

White 243

jpx(NR) it is

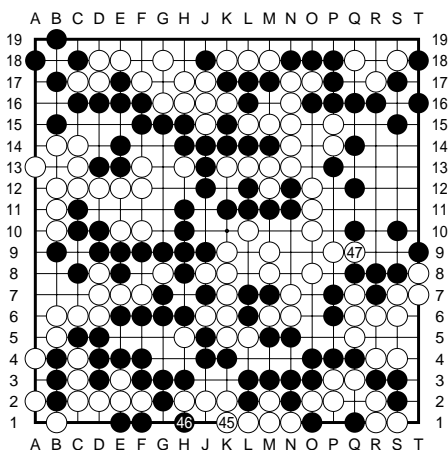

White 241 – Black 242

lixj(NR) no, it is not useless.
good.

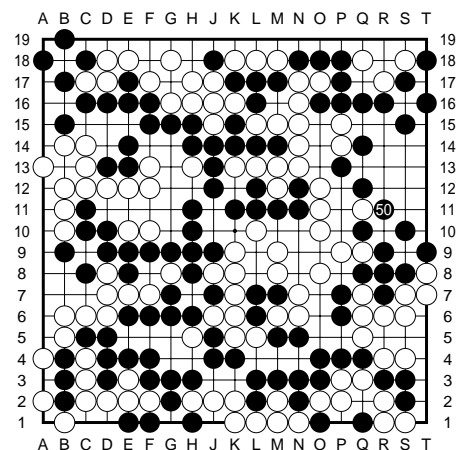

Black 244

zhuge(NR) wow i told you dong is proving a
new theory on IGS.

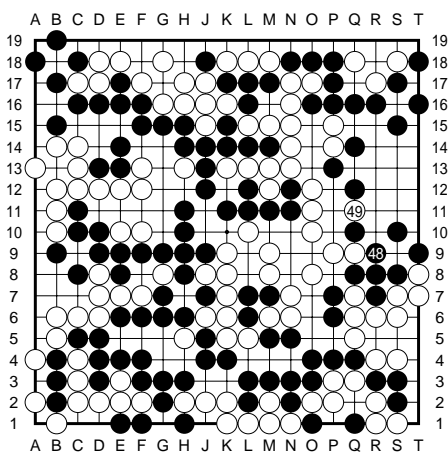

White 245 – White 247

zhuge(NR) if you want to ahve a really good game against a pro, suggest him to go to Europe.

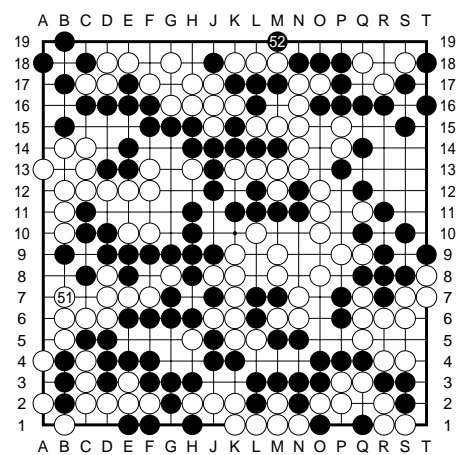

Black 250

zhuge(NR) look, newone beat GuoJuan, lzy beat nagahara; both pros were in Europe. :)

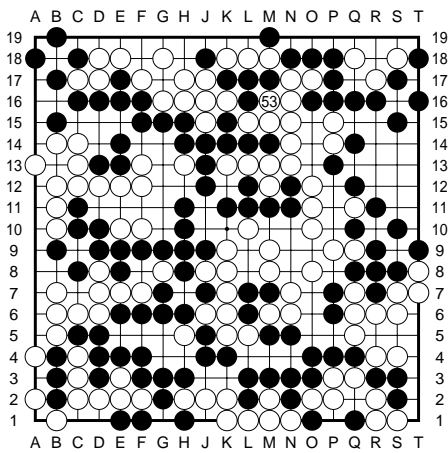

Black 248 – White 249

bn(2k) no, you didn't tell what it is.
zhuge(NR) especially Jansteen's house. :)

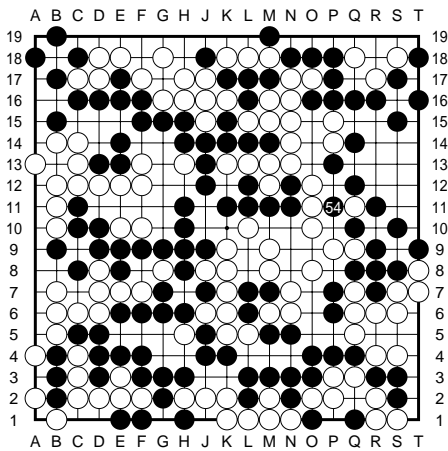

White 251 – Black 252

GoDuck(2d) does p11 work?

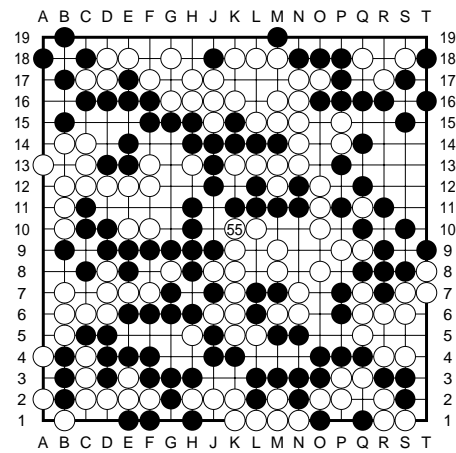

White 253

jrm(16k) hmmm zhuge has a point...

Black 254

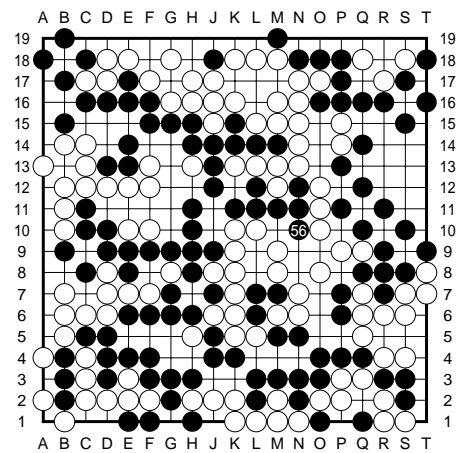

bn(2k) but dong is losing!
zhuge(NR) but he's having a good game.
tweet(NR) zhuge is crazy.

White 255

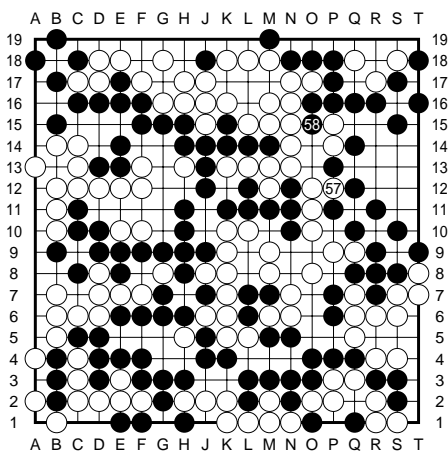

GoDuck(2d) n10

jpx(NR) common on, any theory has some exceptions.

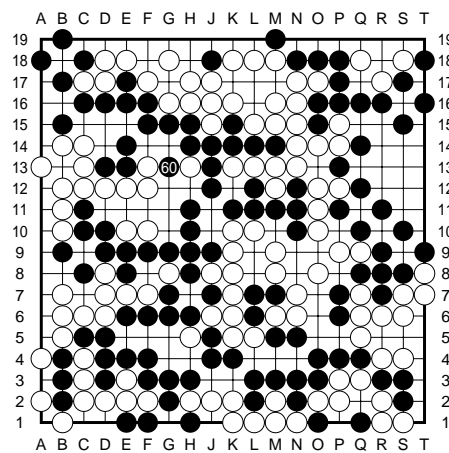

Black 256

zhuge(NR) come on tweet... when was i *not
 * crazy? :)
tweet(NR) can't remember.
fmc(7k) or more precisely who isn't crazy
 here ?

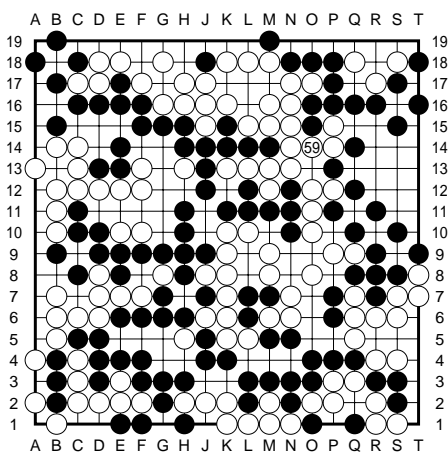

White 257 – Black 258

jpz(NR) the last time zhuge was not crazy,
he pissed hist bed. :-)

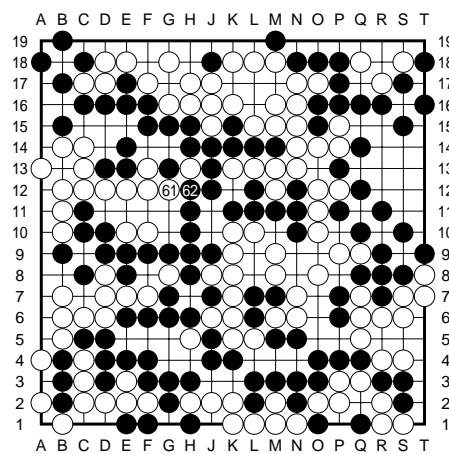

Black 260

zhuge(NR) hmmm, that was what, 1200
years ago?:)

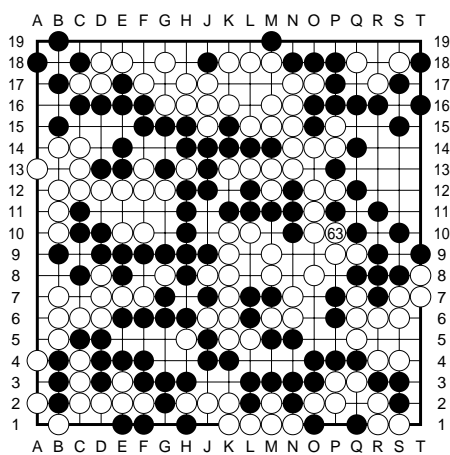

White 259

GoDuck(2d) n9

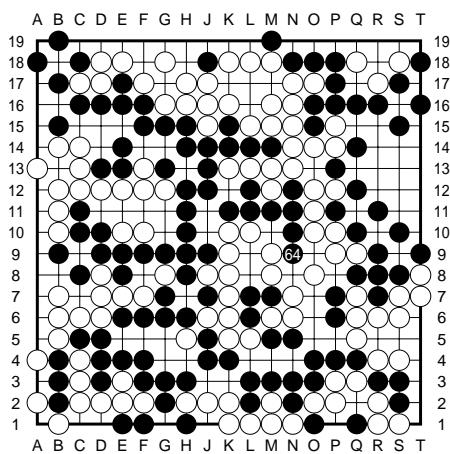

White 261 – Black 262

GoDuck(2d) n9 is 3pt
zihu(5d) why w p12?

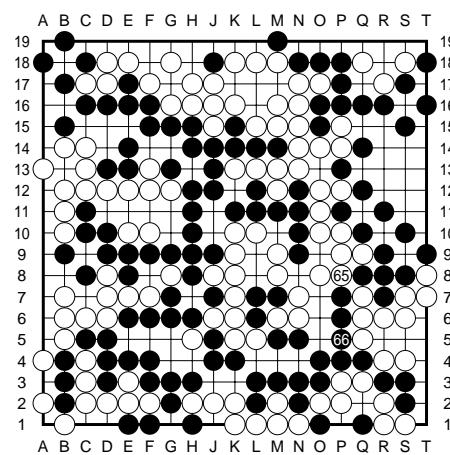

White 263

GoDuck(2d) n9
zhuge(NR) anyone counted?

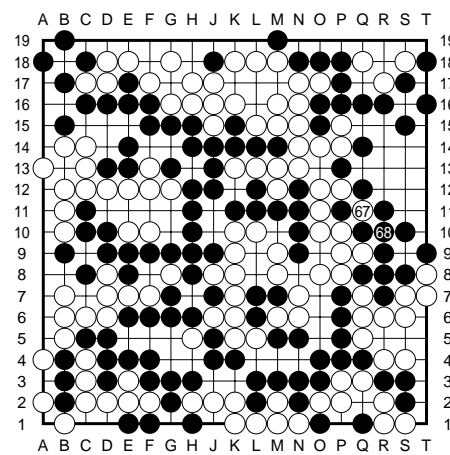

Black 264

bn(2k) i counted w has 70+.
jpz(NR) b 58?

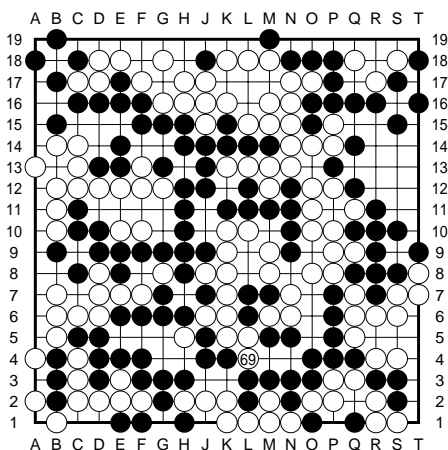

White 265 - Black 266

bn(2k) yeah.

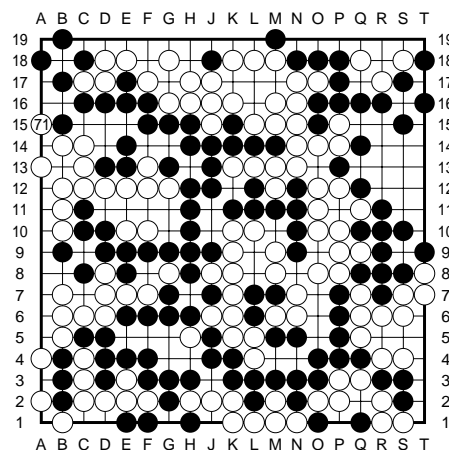

White 267 - Black 268

zhuge(NR) so w is clearly leading?

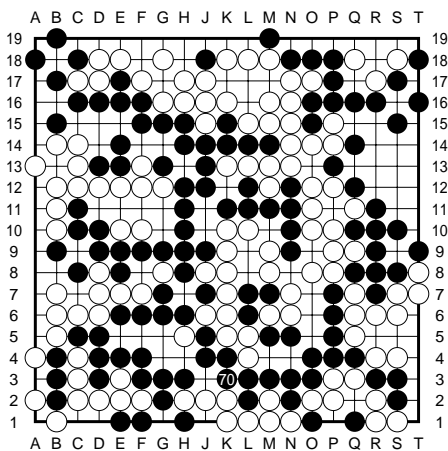

White 269

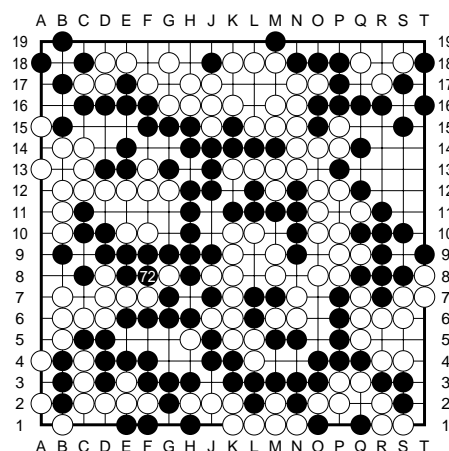

White 271

bn(2k) i think so.

zhuge(NR) i guess dong will fight to teh last blood though.

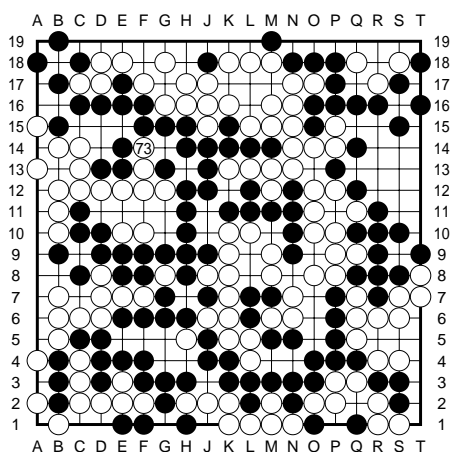

Black 270

Black 272

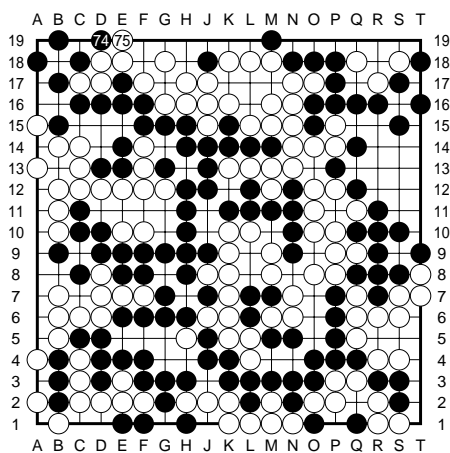

jpz(NR) about 15 pts?
GoDuck(2d) black is 4–5pts behind
jpz(NR) anyway more than 10.

GoDuck(2d)?

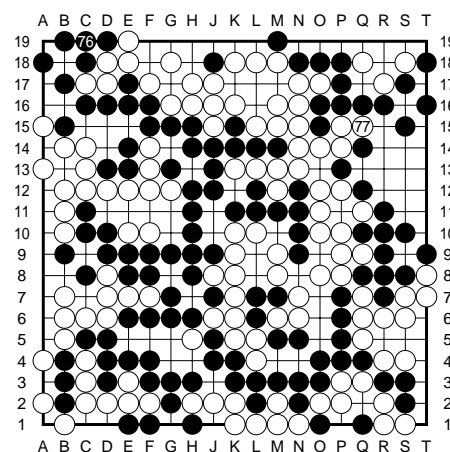

White 273

GoDuck(2d) a16 is still big

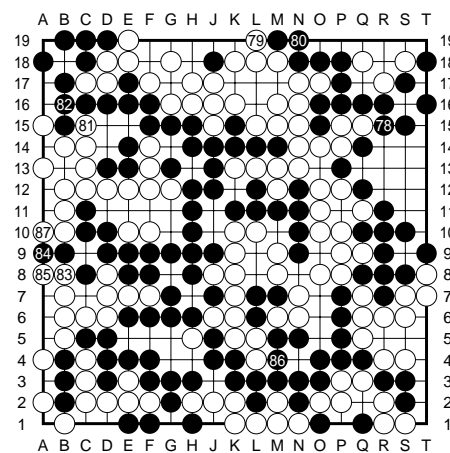

Black 274 - White 275

lixj(NR) why not A16?

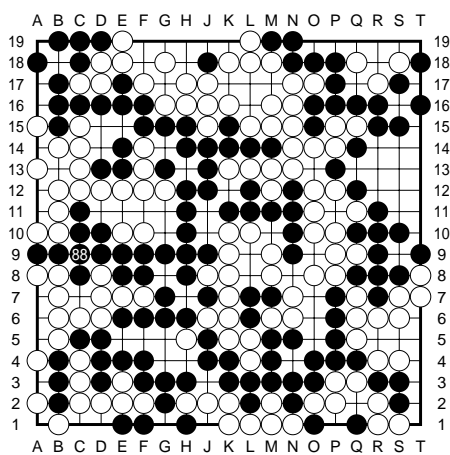

Black 276 - White 277

zilu(5d) w is about 6 pts ahead

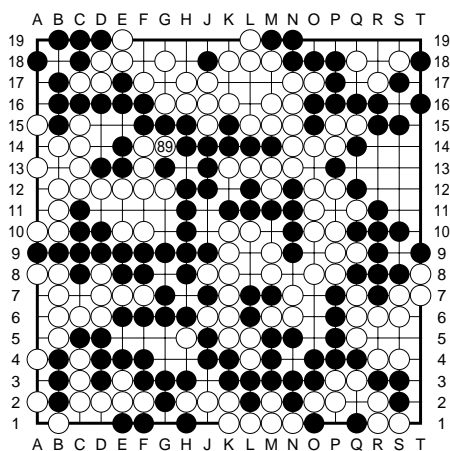

Black 278 - White 287

zhuge(NR) i have a book written by ishida
on ending games... so ... :)

Black 288

opt(NR) who is ishida, zhuge?
GoDuck(2d) d11
jpx(NR) w only 65? someone said 70+?
lzy(???) a16
zhuge(NR) Shi2 Tian2 Fang Fu.
opt(NR) stone field? i see
GoDuck(2d) d11
zhuge(NR) yes.
dong(6d) i lost

White 289
