

Drag And View is Shareware

I wrote these programs with the goal of making your working in Windows easier and more fun. I have released them as shareware for you and your friends and associates to try them out at your leisure. If you think that I have achieved my goal and I have contributed to making your computing life easier and more fun, I would like you to acknowledge that by paying for them. The price for Drag And View and Fileman Launcher is only \$20 plus \$5 for shipping and handling. For your \$25 dollars you will get a new diskette with the latest version of the programs and no registration reminder screens. Your payment will let me know that my work is appreciated as well as help to support my efforts in providing the best products for you, so that I can continue to improve these programs and write new ones.
