1.22	The Interplanetary Medium	4
1.23	Our Expanding Universe	4

Chapter 1

Descriptive Chapters

1.1 Description

This database contains a series of descriptive chapters, linked into by other documents. As a result, no table of contents exists for the file.

1.2 Comets

The following information about comets is available:

- What are comets?
- Where do comets come from?
- What do comets look like?
- How do I get recognition for discovering a comet?.
- Exploration of comets
- Comet Halley
- Comet Shoemaker-Levy 9
- Pictures

1.3 What do comets look like?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.4 What are comets?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.5 Where do comets come from?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.6 Exploration of comets

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.7 How do I get recognition for discovering a comet?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.8 Comets - Pictures

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.9 Asteroids

The following information about asteroids is available:

- What are asteroids?
- Where are asteroids found?
- Dangers of collision with Earth
- Exploration of asteroids
- 951 Gaspra
- 243 Ida
- Pictures

1.10 What are asteroids?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.11 Where are asteroids found?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.12 Exploration of asteroids

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.13 Dangers of collision with Earth

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.14 951 Gaspra

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.15 243 Ida

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.16 Asteroids - Pictures

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.17 Meteors

The following information about meteors is available:

- What are meteors?
- Observing meteors
- Annual meteor showers
- Dangers of a serious catastrophe
- Pictures

1.18 What are meteors?

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.19 Observing Meteors

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.20 Annual Meteor Showers

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.21 Meteors - Pictures

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.22 The Interplanetary Medium

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.

1.23 Our Expanding Universe

This information is not provided with the demonstration version of "The Digital Universe". Please consult Ordering The Digital Universe for more information on how to obtain a registered version.
