# Chapter 1

## WinMan

### 1.1 The window cleaner

WinMan

**Intro** The boring bit that nobody reads...

**Usage** How to use this infinitely simple program...

ÉÍ`AANEÍÍGÓÓ`AHOOT`É ??????????

### 1.2 Allow me to introduce ...

This program does some stuff to your windows, like tiling, cascading etc.

Sorry this is so short, but I hate wrting these things.

### 1.3 Shake three times, stir, and drink

Double click on the icon to get it going. The press any of the tooltypes for the desired effect.

Tooltypes:

CASCADE= CTRL SHIFT C - will cascade your windows

RCASCADE= CTRL SHIFT R - will casacde your windows, but this time to the right, WOW!

TILE = CTRL SHIFT T - will tile your windows

HORTILE = CTRL SHIFT H - will tile your windows horizontally

VERTILE = CTRL SHIFT V - will tile your windows vertically

CLOSE = CTRL SHIFT K - will close all of the open windows

MINIMIZE = CTRL SHIFT M - will minimize all of the windows

MAXIMIZE = CTRL SHIFT N - will maximize all of the windows

MOVEDOWN = CTRL SHIFT DOWN - will move all of the windows to the bottom of the screen

MOVEUP = CTRL SHIFT UP - will move all of the windows to the top of the screen

MOVELEFT = CTRL SHIFT LEFT - will move all of the windows to the left of the screen

MOVERIGHT = CTRL SHIFT RIGHT - will move all of the windows to the right of the screen

P.S. give my program a try for a week, and I bet you'll love it. And when I say a week I mean use it!!!

P.P.S. It can't close CLI windows, I don't know why, and I don't know how to fix it, it's something another program not too dissimilar to this can't do either.
