Sample Code Notes

#12:   Signals

Written by: Rick Blair

Versions:	1.00	Technical Note #88
		and MacApp 1.1
	2.00	November 1988

Components:	`UFailure.p`	November 1, 1988
	`UFailure.h`	November 1, 1988
	`UFailure.incl.p`	November 1, 1988
	`UFailure.a`	November 1, 1988
	`TestSignal.p`	November 1, 1988
	`TestCignal.c`	November 1, 1988
	`TestSignal.make`	November 1, 1988
	`TestCignal.make`	November 1, 1988

UFailure (or Signals) is a set of exception handling routines suitable for use with MacApp, MPW Pascal, and MPW C. It is a "jazzed-up" version of the original MacApp UFailure unit, and it includes a set of C interfaces too.
