	TestSignal.p	November 1, 1988
	TestSignal.c	November 1, 1988
	TestSignal.make	November 1, 1988
	TestCignal.make	November 1, 1988

UFailure (or Signals) is a set of exception handling routines suitable for use with MacApp, MPW Pascal, and MPW C. It is a “jazzed-up” version of the original MacApp UFailure unit, and it includes a set of C interfaces too.
