#5:   HierMenus

Written by: Bryan Stearns

Versions:	1.00	August 1988
Components:	`HierMenus.p`	August 1, 1988
	`HierMenus.r`	August 1, 1988
	`HierMenus.make`	August 1, 1988

HierMenus is a very simple demonstration of how to use hierarchical menus in your application.

We recommend that you review Sample or TESample for the general structure and MultiFinder techniques you should use when writing a new application.
