GEMini CDROM for Atari Computers now available.

Walnut Creek, Calif., November 1, 1993 - Walnut Creek CDROM is proud to announced the immediate availability of the GEMini CDROM for Atari Computers. This is the first Atari product from Walnut Creek who also produces cdrom's for the PC Intel computers.

What will Atari computer users find on this disc? They will find the largest collection of programs presently available on a cdrom. With programs in such categories as utilities, games, general productivity. They will also find fonts, GNU utilities, virus protection programs, desktop publishing clip art, database programs, text editors etc... Programmers will be happy to note that a lot the programs on the disc comes with complete source code making the GEMini a valuable reference for Atari programmers.

Each directory on the disk contains an index with short description of each file. A central index is also included which can be used with a text editor to quickly locate the file your looking for. This disc includes programs and files for the Atari ST, TT and Falcon computers plus support files for the Portfolio pocket computer and the Lynx and Jaguar video game.

GEMini is available immediately from Walnut Creek CDROM at a retail price of \$XX.95.
