# Chapter 1

## Aquarium

### 1.1 Midnight Blanker Document

The fish of Midnight are happy as long as they get lots of fish food. It might not be easy for these guys. Boy are they large or what? Ok, so maybe they don't eat fish food, and maybe they still need to be "oiled", but they have young fish class.

### 1.2 Editor Options

Name HotKey Description

-----

Number N Number of fish to float around in your monitor. \*

Speed E Speed of blanker module.

Screen Mode M Selects display mode.

Save S Saves preferences.

Cancel C Exit/Cancel without saving.

Priority P Only change if you are experienced with AmigaDOS!

Music . Music module file requester.

\* This depends on the size of your display mode you have chosen. I hope in the next version to make this blanker module very robust. (Large schools of fish swimming around with nice underwater vegetation...)
