READ ME NOW

If you want to see more software like NCSA DataScope, send us a letter, email or US mail, telling us what you are doing with NCSA DataScope. We need to know: 1) What science you are working on—an abstract of your work would be fine; and 2) How NCSA DataScope has helped you, for example, by increasing your productivity or allowing you to do things you could not do before.

We encourage you to cite the use of NCSA DataScope, and any other NCSA software you have used, in your publications. A bibliography of your work would be extremely helpful.
