Cheats Disk V2.1

Compiled By:
James (Smeg-Head) Quarterman

WELCOME:

Welcome to "Cheats! V2.1"!

This disk has OVER 2525 cheats and tips for OVER 800 Games!

The disk was compiled using an Amiga 500 (½Mb Chip Ram & ½Mb Fast Ram), an Amiga 600HD (2Mb Chip Ram), an Amiga Action Replay MK III, an A570 CD Drive, CDPD, CDPD IV, Diskmaster 2, MicroEMACS V1.3, PPGuide, and lots of hard work.

MUSIC:

The music is called 'Gone For Good'.

It was produced by Dr Awesome from The Crusaders.

If you wish to contact Dr Awesome, write to the following address:

Kroken 9,
2010 Strommen,
Norway.

To stop the music press BOTH mouse buttons together.

HISTORY:

- V1.0 It was produced in ASCII. It had cheats for over 500 games.
Used PPMore to display the cheats.
- V1.1 Added lots more cheats and added an intro picture and music.
This version was never released.
- V2.0 This version. New look, by using PPGuide to display the cheats,
and separated the cheats into three sections.
Added lots more cheats, plus cheats for the Amiga CD\$^3\$^2\$.
- V2.1 This version. Added new music for users with 1½Mb or more of Ram,
added an intro picture, and used a new method of loading the
cheats.

MY NAME:

If you are wondering why I have got 'Smeg-Head' between my first name
and my surname, I will explain...

Last year (1994) I bought a Red Dwarf T-shirt. On the front was the Red
Dwarf logo and underneath this were the words in big white capital letters
"Smeg Head". On the back was written "Better Smeg Than Dead!".
When I first wore the T-shirt my Mum and My sister called me a 'Smeg Head'.
Now whenever I wear this T-shirt they call me this. (They don't mean it
though, I think.)

MY ADDRESS:

If you wish to contact me for any reason e.g. bugs found, comments etc.
(NO SWAPPING!) write to the following address:

51 Lent Green Lane,
Burnham,
Slough,
Berkshire.
SL1 7AS

ENGLAND

Please state what Amiga model and what version of 'Cheats!' you have please. This is for my reference only.

1.3 Credits

Compiled, edited, tested by James (Smeg-Head) Quarterman.

Music by Dr Awesome from The Crusaders.

Hello to every body at...

17-Bit Software, Active Software, Bus Stop PD, Cynostic PD, Easy PD, Five Star, Magnetic Fields, PD Soft, Seasoft Computing, Underground PD, Virus Free PD, and everybody who works at or owns a PD library.

A special hello to Stephen from Childwall, Valley, Liverpool.

See I told you I would send you a copy of this new version as soon as it is finished. Sorry for the wait.

Thank-You to...

My Mum, My Dad and My Sister - for their morral support.

1.4 Index

There are over 800 games featured!

You don't expect me to list them all, do you?

1.5 Help

If a cheat doesn't work try typing in what you have to type, but in CAPITALS, or lower-case, or a MiXtUrE Of bOtH.
Or try typing it somewhere else in the game.

How to use the 'Action Replay' pokes:

1. You need an 'Action Replay' cartridge.
 2. Load game and start playing.
 3. Freeze the game by pressing the RED button on the cartridge.
-

4a. If the code has M at the begining, type the code then press <Return>. e.g.

M5955

The screen will display the current number of lives or what you want to change as follows

005955 02 03 0C

with a whole lot of other numbers. The only important one is the 02, i.e. the first one after the location number. Use the cursor keys to move up to the 02 and change it to FF (255 decimal) and press the <Return> key when you have changed it. Press <X> then <Return> to exit and you should have 255 lives which should be ample.

4b. If the code has TFD at the begining, e.g.

TFD44972

Just type it in then press <Return>. After a brief pause, all being well the computer should respond with the following lines:

SUB FOUND AT :00045E3C

SUBS ELIMINATED!

This has now removed the SUB1 instruction which decreased your lives or energy ect. Press <X> then <Return> to exit and you should have infinite lives.

NOTE. The figures are just for example. If you have any problems consult your manual.

1.6 'Action Replay' pokes

GAME	CODE	EFFECTS
----	----	-----
Action Fighter	M193DC	Lives
Alfred Chicken	M513F5, 7F, 127	Lives
	M513F0	Time (100 's)
