

Welcome!

DivX 6 for Mac offers the latest in world-class DivX video playback and encoding for your Macintosh computer with an enhanced User Interface, significant performance improvements and the introduction of the DivX Converter for easy drag-and-drop encoding.

By installing you get:

- Unlimited playback of all DivX movies, whether created on Windows, Mac or elsewhere.
- Free 15-day trial of DivX Converter, which enables you to easily convert virtually any QuickTime Movie to DivX.
- The DivX 6 Codec (including a full 6-month free trial of its Pro features) which allows you to export DivX movies from popular applications like iMovie, QuickTime Player Pro and Final Cut, both Pro and Express.
