 This file is part of Oberon-A.  
 See Oberon-A.doc for conditions of use and distribution.

---

EAGUI (Environment Adaptive Graphical User Interface) is a small (15K) shared library that allows a programmer to create completely font-adaptive and resizable GUIs using standard GadTools and BOOPSI objects. It was created by Marcel Offermans and Frank Groen.

At the moment there is no formal documentation for the Oberon-A interface and the support modules I have written. This will be forthcoming when I have the time.

EAGUI documentation (if you have the EAGUI archive)

```
~Complete.guide~  Main documentation file
~EAGUI.guide~~~~~ Autodocs
~Tutorial.guide~  Documentation for tutorial code
```

#### Modules

```
~EAGUI~~~~~ The library interface.
~EAGUI_Macros~~~ Oberon versions of C macros
~EASupport~~~~~ Useful procedures
~EALabels~~~~~ Text label objects
~EAFrames~~~~~ Group frame objects
~EASeparators~~~ Group separator objects
~EADialogs~~~~~ Dialogs using EAGUI objects
```

---

## Examples

```
~TextField~~~~~ Example of text objects
~OAExample~~~~~ Translation of example.c
```
