### 1.2 Introduction

Introduction

I wasn't satisfied of the currently available message saving scripts so I've wrote mine and I've wrote it to allow use from both Thor's ARexx menu and from another script.

### 1.3 Using with Thor

Using GMarchive from Thor

This script can be used either from Thor's ARexx script menu or from another script (as I've done with mine GMCleanConf.thor)

Parameters:

---

<none>      to save the currently selected msg (useful as an ARexx menu script)

or

BBSNAME/A CONFNAME/A MSGNUM/A/N ARCFILE EXTRACOMM/S

BBSNAME      This is the System name, required  
 CONFNAME    This is the Conference name, required  
 MSGNUM      This is the Message Number, required  
 ARCFILE     This is the fully qualified file, default is THOR's Save dir  
              plus 'GM' plus first\_14\_chars\_of\_subject plus '.txt'  
              if there is no subject name is 'GMarchivedMsgs.txt'  
              If file already exists the message is appended  
 EXTRACOMM   Switch to save \*all\* the message's comments, default to save  
              only the basic ones

## 1.4 Distribution

Distribution

GMarchive.thor is freely distributable, but remains (c) Gian Maria Calzolari, 1999.

It may not be distributed alone but only with the GMSuite archive.
