

## **The WPA Multimedia Collection**

The CD ROM titles sampled here from the WPA Film Archives include hundreds of AVI movies for CD ROM-equipped Windows systems. The sample clips here are from three separate titles: "THE ARCHIVES OF HISTORY", a compendium of significant images from the 20th century; "CARS! CARS! CARS!", a comprehensive survey of the automobile; and "WILD, WEIRD & WACKY", a compendium of the strangest images ever recorded on film. Besides the entertainment value, these moving images, sound effects, and photographs can be extracted and used professionally on a limited basis for in-house production purposes.

Call (800) 777-2223 for additional information on WPA products.
