

Remanufactured Laser Toner Cartridge

Ordering Information

**Apple Remanufactured
Laser Toner Cartridge**
Order No. M2795G/A (Pallet Size 84)

Recycling

You can help protect the environment and save money, too, by recycling Apple remanufactured laser toner cartridges. To make recycling easy, a postage-paid return mailer is included with every cartridge. Unlike drilled and refilled cartridges from other suppliers, Apple remanufactured cartridges are carefully disassembled, inspected, and reassembled with new parts when necessary to ensure performance that meets or exceeds that of factory originals.

Technical Specifications

Packaging Specifications:

Height: 9.5 in. (24.1 cm)
Width: 5.4 in. (13.7 cm)
Length: 15.0 in. (38.1 cm)

Weight: 4.0 lb. (1.8 kg)

Approximate Printing Yield:
4,000 pages at 5% coverage per
8.1 in. x 10.6 in. print area
(20.6 cm x 26.9 cm)

Printer Compatibility List

- Apple LaserWriter IISC, IINT, IINTX, II, IIg.
- Hewlett-Packard LaserJet II, IID, III, IIID 8PPM.
- Brother HL-8, HL-8D, HL-8E, HL-8F, HL-8PS.
- Olivetti LP 5000, PG 108, PG 208, PG 303 8 PPM.
- Canon LBP-200V, LBP-8 II, LBP-8 II R, LBP-8 II T, LBP-8 III, LBP-8 III R, LBP-8 III T, LBP-RX, LBP-SX, LBP-TX.
- QMS 2306S, 3306S, KISS PLUS, PS 810, 815, 820, 820 TURBO, PS 825 8 PPM.
- DEC DECLaser 2100, 2150, 2200, 2250 8 PPM.
- WANG LDP-8, LDP-8-DSK-T.

Remanufactured Laser Toner Cartridge

Features

- Provides superior output at a low cost.*
- Designed to provide better gray-scale images and sharper text than most remanufactured and refilled cartridges.
- Produces the same page yield as a new OEM cartridge.
- Helps minimize landfill waste by using a remanufactured laser toner cartridge.
- Designed for use in Apple, Hewlett-Packard, and compatible laser printers based on the popular SX laser engine.

** Provides superior print quality under normal printing conditions. For more demanding environments with requirements, such as heavy graphics printing in high humidity and temperatures, a new AppleLaserWriter II EP-S Toner Cartridge (M6002) is recommended.*

Every Apple remanufactured laser toner cartridge is built to provide superior output.* Our cartridges are designed and manufactured to provide the highest-quality graphics and text that an SX-based laser printer is capable of producing, at a very affordable price.

Apple remanufactured toner cartridges are filled with our fine-particle toner, which produces laser-sharp documents with rich black text and graphics, and the maximum gray-scale range. Apple remanufactured cartridges are carefully disassembled, inspected, and reassembled with new parts when necessary to ensure performance that meets or exceeds that of factory originals. The cartridges are then carefully sealed so that the white spaces, including margins, are free of streaks, speckles, and blemishes.

Our remanufactured cartridges aren't only a very attractive choice for Apple printers, they are also compatible with many non-Apple printers. This will enable you to get the very best possible print quality from your SX laser printer, regardless of the brand name. As you may have already discovered, drilled and refilled cartridges can provide inconsistent results. Tougher still is finding a remanufactured cartridge vendor that can deliver consistently outstanding quality.

Apple's Remanufactured Laser Toner Program is simple. You don't need to wait for a cartridge to be picked up or sent in before getting a fresh cartridge. Apple's remanufactured cartridges are available from many authorized Apple resellers without delay, trade-ins, or any other complicated programs.

Whether you prefer a remanufactured or a factory-original laser printer cartridge, you've come to the right place for the very best.
