IBB V2.0 (Internet Bank Book) is a utility which keeps a record of your calls to internet including Time and Date of your call, the cost and rate at which you were charged at depending on when you called.

These rates are calculated as follows (For NB, Canada)

Prime time (8am-6pm) (10 cents/min)  $10 \text{ cents}/60 \text{ sec} = 0.001666666666 \text{ cents/sec.}$

20% Discount (6pm-11pm) (8 cents/min)  $8 \text{ cents}/60 \text{ sec} = 0.00133333333333 \text{ cents/sec.}$

50% (5 cents/min)  $5 \text{ cents}/60 \text{ sec} = 0.000833333333 \text{ cents/sec.}$

IBB updates the online charging each second up to 16 decimal places.
