## 1.40 WABBIG EDITORIAL

## WORLD AMIGA BASED BBS'S INFORMATION GUIDE - RELEASE 1

Now you read the first release of WABBIG. I think there isn't more things to tell you, because it's clear enough! :)

### Some Informations :

Most of the BBS informations got it from the T-LIST..... biggest thanks goes to the creators of T-LIST. I just adapted it to amigaguide and added some new BBS's.

(I hear some LAMERs say "why?")

Here are my reasons LAMER! :

1. Can't put all the numbers in my terminal programs phonebook.
2. Can't waste time with searching for a foreign BBS number.
3. Can't waste time with searching for the local area code, or country dialcode.
4. Ofcourse was the T-LIST enough. But i like the amigaguide style and saw

some missed BBS's in T-LIST (sorry Phideaux!, Flashback and Intruder).

...enough???

Now at last i want point some dudez that i still release an another guide called;

TABBIG (TURKISH AMIGA BASED BBS'S INFORMATION GUIDE)
