1.5 PD Advertising

ATTENTION ALL PD LIBRARIES!

The PD listings in Amiga Shopper are becoming more and more popular with our readers.

To fully realise the business potential, draw attention to your company with an advertisement within the magazine!

To find out how you can sell your disks to over 40,000 serious Amiga enthusiasts for LESS than 90 pence per thousand,

call 01225 442244 and speak to:
Helen Watkins or Diane Clarke NOW!

You can't afford not to!

1.6 FutureNet

Amiga Shopper on FutureNet

~~~~~

Amiga Shopper has now expanded its pages on FutureNet. From now on we shall include for downloading software that we review in the PD Select section which has been obtained from Aminet or similar source and so was not submitted by a PD House. This is now possible because of our brand new ftp site. We are intending to keep the software offered very select, with only the best that makes it into Internet Select section of the PD section every month offered.

However, if you are the author of a program that you also wish to be distributed on our site, please send it in for consideration. This is so that we can get programs from people who don't have access to the 'Net onto the Internet.

This is intended to make the software more available to you.

Of course, if you don't have access to the 'net, it is possible that some PD houses will stock it, but we have no way of knowing which. You should try calling around to see who stocks it.

Amiga Shopper's net pages can be accessed on:

<http://www.futurenet.co.uk/computing/amigashopper.html>

from which there is a link to the ftp site to download the software.

If you don't have a web browser, the ftp site itself is situated at:

<ftp.futurenet.co.uk/incoming/futurenet/amigashopper/>

## 1.7 Updating your entry

We want this directory to be as comprehensive as possible.  
If you're entry is incorrect, or your details change, please let us know.  
As you can see this format allows us much more space to cover the details of houses, but please do not update your entry every month with "Now stocks XXX program", because this guide took me long enough to compile the first time. I can't face re-compiling it every month ;-)

Simply send in a completed form and we'll update the entry as soon as possible.

JUST IN --- DISK-SYSTEM 3.0

This program is designed to enable you to create what would best be described as "Multimedia Applications", whereby you can display pictures, read text files, and play sound/noise/protracker modules at the touch of a button. Use it to create your own Disk Mag, PD catalogue, educational presentation, or utility disk.

This one disk contains:-

- \* System Editor - Easy to use interface, which will create new stand alone disks, with upto 999 pages.

- \* File Packer - Which can crunch text or picture files.

Also easily unpacks to two other disks containing:-

- \* System Disk - This is the self-booting master, copy all your pictures,

---

text, fonts, etc, to this disk and then use the above editor to make your own catalogue or menu.

\* System Demo - A short auto-booting demo which shows you what you are aiming for.

Disk-System v2.1 was reviewed in Amiga Shopper December'95 and awarded a whopping 95%, it's the package you've all been waiting for. Care has been taken to ensure that the editor and finished catalogue are compatible with all Amigas and only require 1MB to load, they have been tested on an A500, A600, and A1200 with no problems. Includes full docs on disk. You may, if you wish, distribute your creations as PD, Shareware, or Licenceware, provided that the File Packer and System Editor are NOT distributed with it.

Catalogues can be obtained by sending a stamped, self-addressed envelope and blank disk to our address. All disks are £1.00 with NO Postage & Packing charges whatsoever. A membership scheme is available which, for a Lifetime Membership fee of only £2.99 entitles our members to many discounts and special offers which are detailed in our regularly updated catalogue. From August '95 we will be offering our members 1 FREE disk with every 5 purchased as well as 10% off our

usual disk price.

We now run a very handy and easy to use software PICK'N'MIX service which allows our customers to choose exactly what software they would like on their disks. They can choose from a vast catalogue of utils, modules, samples, text files etc. and have them copied to one or more disks. We charge a paltry £1.00 for every 810k worth of software chosen via the Pick'n'Mix service. Most, but not all, Pick'n'Mix files are archived and we provide a free disk with some of the easiest and fastest to use archivers/un-archivers currently available with the first Pick'n'Mix order.

We stock a large variety of P.D. software: games, utilities, music, slideshows, demos, business, educational, animations and magazines; and we are currently setting up a series of specialist catalogues for Sound and Vision users which will offer vast, fully catalogued listings of music modules, sound samples, sound manipulation, graphics and graphics manipulation software for those interested in multimedia applications.

We accept all cheques and Postal Orders, members can phone their orders prior to sending off payment to ensure a faster service. All phone enquiries are very welcome and we will do our damndest to solve any problems which come our way. All cheques/p.o.'s must be made out to F.J. FOX.

BLACKBOARD CHALKS UP A NEW VERSION!

F1 Licenceware are about to release a new version of arguably the  
most powerful non-commercial image processor on the Amiga.  
Version 4 will cost £8.99 and for that you get a printed A5 manual,  
new front end, On Line Help, New edit facilities, New file formats,  
Mask functions, 3D rotation and lots more.  
Version 3 was rated a massive 91% in AS and just beat Image Studio  
in our head to head review way back in Dec 94. BB V3 also won the  
Amiga Format "Best Graphics Application" award of 94/95.  
Call F1 on 01392-493580.

MORE MONKEY BUSINESS

The highly acclaimed and original GRac (Graphic Adventure Creator)  
allows non-programmers to knock up their very own Monkey island style  
adventure games with relative ease.  
After the booming success of V1.0, F1 Licenceware have released a new

---

version. V1.1 which clears up a few minor editor bugs and GRac now works on ALL known Amigas. GRac V1.1 comes with an A5 printed manual and a complete game created with GRac itself, to show you what can be done. All for £6.99. Also on offer is the "GRac user disk" issue 1 at £3.99 which gives GRac users a lengthy tutorial, hints and tips and freely distributable graphics. Call F1 on 01392-493580.

#### INTRODUCING WORKBENCH

The best ever selling F1 Licenceware title, Introducing Workbench has had a massive update to V2.0. Int Wbench 2 now comes on four disks (previously two) and covers all of Workbench 2 and 3 in fine detail. Int Wbench 2 is out now and costs £6.99. Call F1 on 01392-493580.

#### F1 CD ROM SOON!

F1 Licenceware have just announced what could be the CD of 95/96 to own. F1 Licenceware Vol 1 will contain F1 titles 1-100 and some, as yet undisclosed, "Extra goodies" F1 have distributed some of the best non-commercial titles recently including such classics as Relics Of Deldroneye, Blackboard, Art School, Word Plus Pro, Legions Of Dawn, Introducing Workbench and The Ultimate quiz, to name but a few. To buy the floppy versions seperately would cost nearly £500 The CD is due for release mid September 95 and will retail at £32.99 Call F1 on 01392-493580.

#### Lottery Winner Pro V3 - By Paul Morley

What can I say ? This is THE lottery prediction program. It features a great and easy to use interface, Hot/Cold number prediction, Wheel system ( And Wheel editor ) with future wheel disks coming soon, Zodiac prediction and a whole lot more ( Including FULL technical support from the author ).

This really is the dogs privates, and just to prove it one lucky user ( Of an OLDER version ) has recently won two grand ! The author himself has won seven times to date ! ( How many times have you even won a tenner ? ).

Price - £5.00

"Another lottery predictor ? And they want a fiver for it ? Mind you, how much do you spend on the lottery every week ? You might as well spend a little on some 'help'."

"This is a pretty extensive predictor with a variety of methods available..."

#### Smart CardZ - by Paul Morley

Don't have AGA ? Or you have AGA but no Hardisk ? I bet you've seen Klondike Deluxe AGA on a mates computer, or read a review ? Why oh why isn't there a version for you ?

Well as luck would have it, there is. And it's brilliant ! This uses converted Klondike cardsets ( From 256-->16 colours ) and looks really stunning.

There's not much really to say, if you want THE Klondike game for your computer then get this. ( Please note, this is a MAJOR update from the PD version, CardZ, and we all know how good that is ! Also the PD version is no longer supported with cardsets, only this new version. )

Price - £3.99

#### LightSpeed - By Sublime Software

From the authors of the excellent 'Last Lap' comes THE Tron based game. This ISN'T yet another lightcycles clone, this introduces a totally new element to the genre ( Tag ! ), and has a load more features, such as scrolling, split screen two player action, loads of levels and the great presentation that you'd expect from Sublime. Look out for this, you'll cream your pants !

Price - £4.99 ( 2 Disks )

## 1.113 PD Authors List

This list is a guide to individual PD authors who are selling their programs directly. As it is a new section, it is by no means a full guide. In fact, it is still very small, but it will be updated as often as possible.

If you want to add an entry to this list, send you details in.

|                |                                               |
|----------------|-----------------------------------------------|
| PD Authors     | Have you written a masterpiece?               |
| PD Advertising | How to back up your details with advertising. |

The list is actually catagorised by program, to make it easier to find the program you want. Note that the descriptions of the programs are those supplied by the author and are not the opinion of Amiga Shopper.

1.114 Autoboot

Autoboot v.5

The latest version of the utility that makes self-booting disks in just a couple of minutes. It is incredibly easy to use and contains lots of useful

information about putting your own programs onto a bootable disk.

This latest release also allows more advanced users to customise the resulting boot disk by specifying which files should be written to it. In this way it is now possible for AmigaDOS experts to increase disk space at the expense of facilities such as the RAM disk, device ports and a few non-essential AmigaDOS commands.

1.125 Ali Prior 'Pro-Soft' range

Ali Prior, Pro-Soft, PO Box CR53, Leeds, LS7 1XJ

Currently specializing in prediction software, although a few other projects are in the pipeline for 96.

Programs available at the moment are ...

PRO-LOTTERY 96

A completely re-written version of the original Pro-Lottery that was well received by both the Amiga magazines & the users who purchased it. Contains many powerful features, including the ability to perm entries so that you can even cover 48 of the 49 numbers! It Could Be You! Not sure about the way lottery prediction could possibly work? Then keep reading, and find out how to get a free demo copy that explains all.

PRO-FOOTBALL

Powerful, yet easy to use prediction system for both football pools and fixed-odds football betting. If you don't believe that a pools predictor can be quick & easy to use, then send for your free demo copy today!

PRO-GAMBLE

Extremely successful horse-race prediction package - again, quick & easy to use with little racing knowledge required. Many users have said that it has been more profitable for them than programs costing several times as much - don't take my word for it though - try the free demo!

PRO-GREYHOUNDS

Em .. I wonder what this one does? You guessed it - a dedicated dog-race predictor - try the free demo of this too!

BOOKIE BEATER

This program calculates stakes for you so that it's possible to bet on say 6 selections, and still make a profit no matter which one wins! Too good to be true? The demo is FREE, so there's no risk in finding out!

COMING SOON An alternative to the commercial programs that offer to 'organise' your time for you - except with more features at a fifth of the price! Write for details, and why not get a free demo of one of my other programs while your at it?

TO GET YOUR FREE DEMO PROGRAMS, SEND A BLANK DISK FOR EACH PROGRAM REQUIRED, ALONG WITH YOUR NAME, ADDRESS AND A FIRST CLASS STAMP TO ...

Pro-Soft, PO Box CR53, Leeds, LS7 1XJ

Your disks will be returned to you same day - guaranteed!

1.126 Techno-1

Techno-1 Disk Magazine

This disk magazine is now onto its fifth issue. It has many sections ranging from reader swaps to free PD. The magazine is usually on two disks.

All you need to do is send 2 disks and 40p (or £1.20) and an S.A.E.
(or 45p UK, 75p Europe and £1.50 R.O.W.).
