1.3 Introduction

Introduction

* What is Stereo Crypter ?

  Stereo Crypter is a program made to crypt and hide your datas in old
  stereograms pictures.

* But, what is a stereogram ?

  A stereogram is a picture hidden in another picture. You must squint
  to see the hidden picture. But, this is only the theory. In the facts,
  it's very hard to see these pictures. So why not to hide datas instead
  of a picture. That's the idea of Stereo Crypter.

* Overview of Stereo Crypter.

  Stereo Crypter was made in AMOS Pro v2.0. So, that's why it's not a
  wonderful workbench program with buttons, checkmarks, sliders ...
  The interface is graphically very poor (inspirated by MS-DOS, you
  see?!?)
  It is composed by a menu in text mode + a stereogram view when
  crypting/decrypting.

1.4 Installation

Installation

It's very easy to install Stereo Crypter, just follow these steps:

- Copy your directory Libs/ to your LIBS:

  (There is just the Iff.library)

  If you have already installed this library, you could pass to the next
  step.
  Just be sure you have the latest version of this library.

- Make a new directory for Stereo Crypter.

- Copy the documentation "Stereo Crypter.guide" and
  "Stereo Crypter.guide.info" to the new directory.

- Copy the program "Stereo Crypter" and "Stereo Crypter.info" to the new

directory.

1.5 Greetings

```
                        Greetings list
```

```
– Escom                for having bought Amiga technologies.
– François Lionet      for his great AMOS language.
– Rennes Amiga Club    because it's the nearer Amiga club. Great, your
                       new Internet access.
– Hervé Aubry          the RAC boss. Yes, I gave you my
                       subscription !!!!
– Olivier Leclerc      for having repaired my Amiga. Thanx !!!
  and Dominique Favotti
– Cédric Rouger        for having believed in this project.
– Yoann Faudé          for making me interested in computers.
  and Benjamin Robert
– Jérôme Panhaleux     perhaps I'll make an HP48 version of your
                       "Horse race" game.
– Olivier Barbedette   because you're a so fun guy. See you at the
                       boarding school.
– Auguste Ginat        How do you do ? The army isn't too hard !
– Jean-Luc Ginat       Woooo! Impressive your 840 Mb hard disk.
– Ali Boumedhel        You're a so cool guy !! Forget Valérie, it's
                       better for you !!!
– Gildas Plaa          Great holidays !!! Isn't it ?
– Jean Dante,          The T5A power rules for ever !!!

1.6 History

```
                       Version history
```

```
Stereo Crypter v1.0 (15-08-95):
```

```
  * Improvements:
    - Now,it's a real multitasking program
    - Add the Quit option (no more Control-C check)
    - Add Quit crypting option
    - Add the AmigaGuide documentation

  * Bugs fixed:
    - Keyboard check was lame
    - No more Quit when you unselect the file selector
    - The crypter's engine worked only with four multiples' filesize

Stereo Crypter Bêta version (??-02-95):

    - Pityful little buggy program
```
