History - History and notes

1.2 Requirements

Requirements

- MUI (any version should be ok)

1.3 Introduction

Introduction

With MuiIconType, you can change icons type. You can choice among:

Disk
Kick (for Kickstart disk)
Drawer
Garbage
Tool
Project

It does a little job, so in my opinion it doesn't need a lot of menus or other misc functions, and I've implemented only the essential.

1.4 Greetings

Greetings

I want to greet all #amigaita ircnet dudes and my school friends.

Thanks to Simone Tellini for his aid.

1.5 Usage

Usage

MuiIconType usage is very simple: run it and drag & drop an icon over its windows, then select the new icon type and press "Convert".

MuiIconType shows the original icon type when dropping an icon in its window.

At the moment, MuiIconType doesn't accept any CLI argument. Maybe in the future I'll add a ReadArgs() routine. Let me know if you want this.

1.6 Terms

Terms of use

MuiIconType has been written by Alex Pagnoni, and it's freeware.

MuiIconType is run at your own risk. There are no warranties given. I accept no responsibilities for this program. etc.

MUI - MagicUserInterface

=====

(C) Copyright 1992-97 by Stefan Stuntz

MUI is a system to generate and maintain graphical user interfaces. With the aid of a preferences program, the user of an application has the ability to customize the outfit according to his personal taste.

MUI is distributed as shareware. To obtain a complete package containing lots of examples and more information about registration please look for a file called muiXXusr.lha (XX means the latest version number) on your local bulletin boards or on public domain disks.

If you want to register directly, feel free to send DM 30.- or US\$ 20.- to

Stefan Stuntz

1.8 History

History and Notes

I'm sorry but I've no time to write a decent doc in a decent English.

1.0 - 23/02/1998
First public version

1.9 Bug Reports

Bug Reports

Report bugs to Alex Pagnoni <alex.pag@usa.net>.

1.10 Bugs

Known bugs

I haven't found any bugs nor problems at the moment.
