1.7 Thanx

Thanx to :

FLYx

JanaL Lyon

Stefan STUNTZ for MUI

Wooter Van Oortmerssen for Amiga-E

All the developpers of public domain softwares who make of the AMIGA more than just a computer .

1.8 Installation

Just double-click on install script

1.9 MUI DMS Window

The MUI DMS window have two folders :

1 - **Pack**

2 - **UnPack**

1.10 Pack

Path for Packed files

Enter the path of the directory where you want to put the packed archive of the floppy disk.

Device to read

Choose the device to pack (DF0: DF1: PC0: PC1:)

WARNING : you must choose a device used by DMS.

see the DMS documentation.

Compression Mode

Choose the compression mode of DMS (Default BEST)

Name of archive (option)

You can give the name you want to substitute the default name of the archive

(The default name for the floppy 'foobar' is 'foobar.dms')

Add volume name

select the button if you want to add the floppy name at the name of archive.

example:

the floppy disk name is: 'disk1'

If you put 'foobar_' in Name of archive

and select Add volume name

the name of archive will be : foobar_disk1.dms.

Click OK for packing

1.11 UnPack

Device to write

Select the name of device where you want to unpack the archive.

(DF0: DF1: PC0: PC1: etc ...)

WARNING : you must choose a device used by DMS.

see the DMS documentation.

File to unpack

Select the name of the archive you want to unpack.

('foobar.dms')

Click OK for unpacking
