1.1 WBInfo v2.1

```
-------------------------------------------------------------------------------  ←

                          WBInfo v2.1 (26.2.98)
                replacement for the workbench information using MUI
                           by Eric & Ulrich Hambuch
```

```
-------------------------------------------------------------------------------  ←
```

```
                              Introduction
                              Installation
                              System requirements
                              Compatibility
                              History
                              Author
                              MUI
```

1.2 Introduction

```
WBInfo  patches the wbinfo() routine of the workbench.library to use an own
MUI-Information window. This MUI-Information window has a font-adaptive an  ←
   resizeable
GUI and has extra features like "rename" "Empty Trash" and "Format Disk".
WBInfo is a commodity and so it's possible to control it via Exchange!

WBInfo requires MUI!!!
```

1.3 Installation

To Install: Just Copy WBInfo to your SYS:WBStartup/ -drawer. Instead of this
you could insert it in your user-startup or startup-sequence!

Or simply use the additional installer-script!

1.4 System requirements

· OS 2.1 (v38) +
·~MUI 3.8+

1.5 Compatibility

Incompatibilities? Bugs? Suggestions? Drop us a few lines!

1.6 Support, Adresse

WBInfo is Freeware.This program may be copied for free,as long as
nothing is changed and the ENTIRE package is distributed.

Use at own risk. No responsibility for any damages.

1.8 MagicUserInterface

                      This application uses

                  MUI – MagicUserInterface

              (c) Copyright 1993/94 by Stefan Stuntz

MUI is a system to generate and maintain graphical user interfaces. With
the aid of a preferences program, the user of an application has the
ability to customize the outfit according to his personal taste.

MUI is distributed as shareware. To obtain a complete package containing
lots of examples and more information about registration please look for
a file called "muiXXusr.lha" (XX means the latest version number) on
your local bulletin boards or on public domain disks.

        If you want to register directly, feel free to send

                    DM 30.- or US$ 20.-

                          to
