

ASearch00: About AppleSearch Technical Notes

Written by : Chuq Von Rospach

May, 1994

This document accompanies each release of Apple Business Systems Technical Notes.

We want Technical Notes to be distributed as widely as possible, so they are sent to all Partners and Associates at no charge; they are also posted on AppleLink in the Developer Services Bulletin Board.

We place no restriction on copying Technical Notes, with the exception that you cannot resell them, so read, enjoy and share. We hope Apple Business Systems Technical Notes will provide you with lots of valuable information.

Technical notes are a 'living' complement to product documentation, be it Inside Macintosh or other documentation. This means that they are updated on a regular basis, so as to be accurate and up to date. New Notes are added as required.

This technical note is an index of all technical notes related to the AppleSearch and related products. It also documents all changes to the technical notes since the previous release.

Index

| Technical Note | Subject | Last Revision |
|----------------|---|-----------------|
| ASearch00: | About AppleSearch Tech Notes | December, 1993 |
| ASearch01: | Character formats in AppleSearch | August, 1993 |
