TeleMagic Computer Telephony Interface

TELEMAGIC, INC.

Product Name	<i>TeleMagic Computer Telephony Interface (CTI)</i>
TeleMagic Product linked to:	TeleMagic Professional and TeleMagic Enterprise
Description of product:	Want your computer and your phone to work together better? CTI is the answer! With support for TAPI, TSAPI, Windows 95, caller-id, DNIS, and more, CTI is positioned uniquely as a perfect add-on for small/home office as well as a large corporate network. You can now have the customer contact for the caller screen -pop on your monitor when your phone rings. The amount of time saved in finding and accessing this client's record can now be put to more productive use. The ability to also control your normal phone functions, such as transfers, conferencing, and placing on hold can now be done right on your computer screen. Your phone system and TeleMagic program can now work as one integrated unit.
Pricing:	\$89 each. Call for volume discounts.
System Requirements:	TeleMagic Professional for Windows V2.1 or greater or TeleMagic Enterprise 2.2 or greater TAPI or TSAPI compliant telephone device
Phone Number:	1-800-835-MAGIC
Contact (optional)	Customer Service
Fax Number	(972) 931-8885

TeleMagic Fax Server Module

TELEMAGIC, INC.

Product Name	<i>Fax Server Module</i>
TeleMagic Product linked to:	TeleMagic Professional
Description of product:	The dedicated fax server is designed for anyone who does a high volume of faxing. With the Dedicated Fax Server, you can go into process mode and leave it processing at all times. Users will continue to be able to queue faxes without conflict. You can establish a workstation that is truly dedicated to doing nothing but processing your faxes without having to schedule processing times around when users are not likely to be queuing faxes. Additionally, the fax server can be open and processing on multiple workstations simultaneously. You can even have multiple fax servers processing the same queue from different workstations simultaneously.

TeleMagic Branch Scripting

TELEMAGIC, INC.

Product Name

Branch Scripting

TeleMagic Product linked to:

TeleMagic Professional

Description of product:

TeleMagic's branch scripting is an add-on module which allows you to attach scripts to any record or product in TeleMagic. It's a must for inbound - outbound telemarketing, customer surveys, support or other operations. Just add a script for the representative to read and you'll have instant consistency in your telemarketing group's efforts and information collected by telemarketer will be saved in the contact record. This add-on will give you assurance of knowing every call is handled with the same high quality. Branch Scripting is an easy way to improve consistency and quality of every call.

CoStar Corporation LabelWriter XL

CoStar Corporation

599 West Putnam Avenue

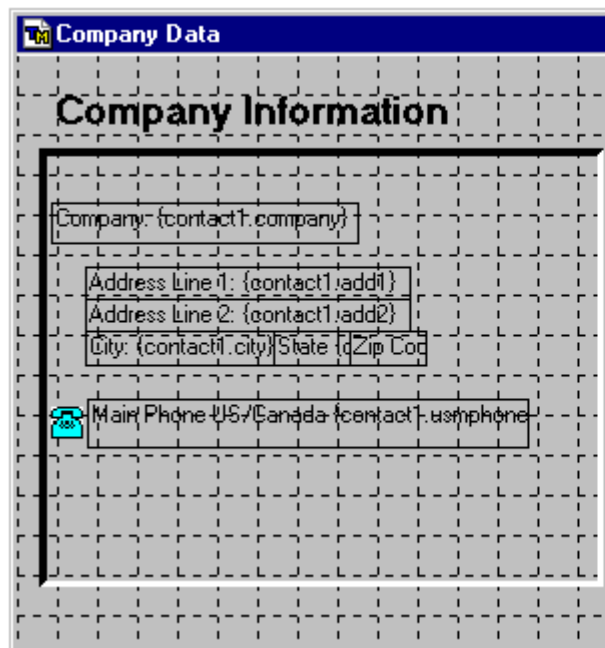

Greenwich, CT 06830

Product Name	<i>CoStar LabelWriter® XL for Windows - #60755</i> <i>CoStar LabelWriter® XL Plus for Windows - #60855</i>
TeleMagic Product linked to:	Works with TeleMagic Enterprise and Professional for Windows and TeleMagic for DOS
Description of product:	<p>Now you can print address and package labels direct from TeleMagic*, without hassling with your laser printer or fumbling with your typewriter. The amazing LabelWriter printer connects to your PC in seconds, and integrates seamlessly with TeleMagic. It prints labels in just 5 seconds each, one at a time, or by the hundreds. No cutting or pasting, no importing or exporting, no screen captures - just think of the time savings. And there's more. The LabelWriter printer also comes with general purpose label printing software so you can print dozens of different labels to help organize your office. Labels for file folders, videos and cassettes, 3.5" and ZIP disks, file folders, notebooks, presentations, ID badges and much more.</p> <p>The LabelWriter is also incredibly reliable. It's a thermal printer so there are no ribbons or toner to change, it prints silently, and it takes up less room on your desk than a telephone (only 4"W x 8"D).</p>
Pricing:	CoStar LabelWriter® XL for Windows - #60755 - \$149 CoStar LabelWriter® XL Plus for Windows - #60855 - \$239

Address Correction and
Standardization Software for
TeleMagic for Windows

Product Name:

AccuMagic™

TeleMagic Product linked to:

Windows Enterprise and Professional 2.x or
greater

Description of product:

AccuMagic couples TeleMagic® with Accu-Mail® to achieve more accurate addresses for all of your contacts. The USPS estimates that over 30% of all mail is undeliverable as addressed. That means your mail is delayed, returned, or ends up in a dumpster.

Most of us realize our customer database is a valuable asset. Why waste postage and delay your mail when you can ensure the addresses you mail to are correct and accurate?

AccuMagic allows you to easily rectify data entry errors such as misspellings, transposed numbers, and omitted information. That corrected information can save you a fortune.

Pricing:

Single	5-user	10-user	20-user
		20+user

From Level 1, a single click creates a Level 2 "Incident" Record, AND a Lvl 3 "Phone Call" Record. Started from Lvl 2, a new call record at Level 3 is logged for current Incident" at Lvl 2. Summary data includes: total calls/incident, caller names, and call notes. Call info. from the CONTACT MANAGER can be EASILY used in TMWIN Custom Report Writer. Stopwatch timer allows "Stop the Clock", then restart, in mid phone call. Inbound or Outbound is tracked. Model #'s and description is stored in a separate TMWIN database for easy maintenance, and automagic lookup. Your TMWIN userID and Department is captured from TMWIN's Options and Depts, so you can track call information for all departments. Great for timed/billed activities.

Software Dimensions, Inc. Super Filter

Software Dimensions Inc.

127 Sunnyside Ave,
Toronto, ON M6R 2P3

Product Name

Super Filter

TeleMagic Product linked to:

TeleMagic for Windows

Description of product:

Do you have a large database? Does it take more than one minute to set a filter or Browse or report? Super Filter will speed up these operations and others - usually by 10 to 1!

Super Filter sets standard TeleMagic filters - simple or complex, one level or multi-level - but does it faster. Operations affected are: setting filters, navigating, reports, record count, Browse, Group Replace and Print/Merge. There is no need for extra indexes or special filters. Super Filter uses the filters and indexes that already exist.

Super Filter is invoked from the toolbar. All standard filters are presented in a list and the user selects one (or turns off super Filter by selecting "All Records").

Super Filter also filters on Activity criteria, such as "all contacts who received this fax a month ago".

Pricing:

5 users \$300 - additional 5 users \$150

Software Dimensions, Inc. E Z Xpense

Software Dimensions Inc.

127 Sunnyside Ave,
Toronto, ON M6R 2P3

Product Name

E-Z-Xpense

TeleMagic Product linked to:

TeleMagic for Windows

Description of product:

Do your employees fill out expense reports? What fun! - sorting receipts by date, dividing receipts into categories and totaling the rows and columns. If you do business in countries with refundable sales tax (eg. Canada and Europe), you have the added pleasure of calculating the local VAT or GST. Finally, the paperwork goes to accounting. They perform the calculations all over again.

E-X-Pense simplifies the whole process. Set up your own expense types, projects, category subtotalling, accounting codes - you can even define which language you want to use. Enter expense items in any order. E-Z-Xpense performs category subtotalling, currency conversion, and sales tax calculations. Print reports and/or create a summary file for direct input into your accounting system.
