Corporate Site Upgrade Procedure

1. Upgrade the central site
The upgrade cannot proceed until the central site has been upgraded.
2. Upgrade corporate serial numbers at the central site.
You will not be able to add new sites until the serial numbers are upgraded.
3. Upgrade remote sites.
4. At the remote sites, send packet to the central site.
This packet will inform the central site that this remote has been upgraded and is ready to be registered.
5. At the central site, respond to the packets from the remote sites.
The central site will assign a V4 serial number to the site.
