# *TeleMagic Enterprise V4*

The following issues apply when running TeleMagic V4 under Windows 98:

Windows 98 does not support TeleMagic fax capture. If you are running Windows 98, you should not attempt to fax standard reports or use fax capture feature.

WordPad integration is not supported in Windows 98. WordPad will not be available on the word processor list in Preferences or the drop-down list in Add Document dialog box. If you attempt to open an existing WordPad document, you will receive an error message.
