

2.3 Viewing Multiple Lessons

For those viewers who want to see the entire lesson files contained in a section, do the following:

1. Select a section from the Course Outline.
2. Click on the “View All Lessons” button, or select “View All Lessons” from the “Actions” menu, or press <Ctrl><A> on the keyboard.

“View All Lessons” plays all the lesson files for the selected section. To stop any of the lessons, click on either the “Stop” button or the “X” in the upper right corner of video window or control panel.
