

```
//ltrkit.ini--Configuration file for The Letterhead Kit/Win 3.1 for WPWin70
//©1992-96 Jerry L. Stern; All Rights Reserved
Application (WP; WPWP; Default; "WPWPUS.WCD")
Global(hs; hm; formL; formP)
// IMPORTANT! After editing this file, you must compile it before running
// The Letterhead again. To compile, resave and then press Alt-F10, type
// "ltrkit.ini" and press Enter. Nothing will appear to happen. That's O.K.
```

```
