All texts were collected and written copyrighted in 1995 by

Nico Barbat (Dire/Eremation).

Index created by Agix V1.2 by Ralph Seichter.

Without your help, The Scene would not exist.

don't forget exchanging new information! :)
 - Sascha Iwanow (Tiger/indi) for a dozen of
lists, reports, descriptions and for his
very big software-collection
 - Lars Sobiraj (Ghandy of Gods) for
-

moral support and some party-results

- Wizard of Subject for his software-list in guide-style (Demos of the World) with useful party-results

1.11 History

The History

Version : V1.0
Released: 11th November 1995 (Amiga Exposition '95)
Size : 336.516K
Comment : the first public release

Version : 1/3 in 1996
Released: 24th January 1996
Size : 483.731K
Numbers : informationon about 143 parties and 1158 productions
Comment : improved the lay-out a lot, especially the overview of the parties (main-table); included an index part (thanks to Ralph Seichter for his Agix V1.2); corrected some mistakes and cleaned up some troubles-making links; added an install-script, Read-Me-Text and a few nice icons and, of course, added much information about new and old productions & parties!

The Future

The guide will be updated about every 4th month, so there will be 3 issues in a year, one in January (after The Party in

Denmark), one in May (after The Assembly) and one in August (after The Gathering).

I have much more texts which will be used in this guide, so expect The Scene to grow a lot in the future (this depends on your support too!). Then again, more information will be pressed into each party, like visitors, prices, extra events and so on. Plus I want to add the party where a production was released to each of its description (if you click from index you don't know exactly when it was released) ... and I have a lot more ideas.

As soon as possible we will include a short description of the productions (e.g. what happens in the demo, what music-style is offered in the sounddisk, etc.) ... be surprised or be dead! :-b

I have seen 2 guide-viewers in the near past, but one was ugly and the other did not display this guide correctly, reason unknown. Could someone please send me a nice guide-viewer??

I would like someone to create a nice installer-script for the original Commodore Installer and probably someone who could code a small intro for The Scene.

1.12 Where can I order these demos?

WHERE CAN I GET THIS DAMN STUFF FROM?

The most of the productions listed in The Scene can be found in the Aminet or Funet. Meanwhile the Aminet administrators and several distributors are selling CDs containing this material as well, such as the Aminet CDs or the Euro-Demo-CDs from Almathera (PD-Distributors).

To avail exact information about these CDs try to get the guide-text called "Amiga CD-Rom Guide V1.4". It can be found in the Aminet at docs/hyper or can be ordered directly from the author, Anders Bakkevold (Addresses).

If you, by chance, can't get your hands on a demo you would like to call your own, you can contact us for getting information like addresses of distributors or exact net sites. If possible (i.e. if we have the wanted production) we are also willing to copy this for you, but please notice that we are no cheap source for getting demos from. So if you would like to receive a demo, then send the disks being needed for it plus the stamps for sending your letter back. And please notice that the maximum disk number we will copy for you is 5 disks (except if a production needs more disks, like Suburban Base's musicdisk) ... We are sorry for these conditions, but we are no millionaires and we don't want to hang loose behind our computers the whole day. :)

We also plan to release about 2,5Gb of the best scene stuff on CDs for a price of 25 DM each. If you want to order one of

those CDs or request a catalogue, don't hesitate to send me a short mail. (Author's Address).

1.13 Where can I order the next update of The Scene?

Where can I order the next update of The Scene?

If you want to get the next update of The Scene please send 3 DM (or 2 US\$) (foreigners send 4DM/3US\$) and you will soon find a brand new disk with the latest update in your mailbox. (On the other hand, you could also send support (information) and get it for free :)

1.14 How to support The Scene

How to support The Scene

This guide needs your help! As I am not able to get all scene releases at all I have to relay on the support and help of you. I am always in search for further and concrete information or corrections of the old entries plus information about new productions or parties (like your own lists, party reports, competition results, reviews, articles or what so ever). If you send information (at least 2Kb of plain ascii) you will get the next updated version for free (please send a disk) and your name will be added to the honorable credits! [Author's Address]

1.21 What is <The Scene>?

What is The Scene?

This guide was written and compiled for the purpose to unite all releases from the important Amiga-Scene-Parties into one list, mainly as a small orientation for everybody who collects or searches for special productions or for productions from special groups or who wants to gather information (like hardware requirements, single producers or what so ever) about a special production. I hope this guide is helpful for at least some of you :)

This guide does not include:

- pack series (rarely own group's file demos collections)
- mag-parts of any pack series
- any productions including nazi-propaganda
- sounddisks just playing a module with no code and GFX
- cheat disks, doc disks or solution disks
- games or game-clones
- tools or tool-clones
- the most of those ugly hardcore demos and slideshows
- various private module or slideshow collections
- any stuff (PD-series) from commercial PD-distributors.

The problem with the correct results

We're very sorry that there are no complete results but the organizers even seemed to be not capable to unite a few groups in a small text; the official results only included some vague names of the designers. We will try to find out all the other productions and their correct positions till the next update of The Scene.

Remark : two versions available: for MC68020 and MC68030

Remark : Demo was originally no. 1 at Doom's Day Party 1994, but rules stated that the demo must work on a standard A1200 (demo supported MC68030, but worked on a A1200 MC68020 too!). So Rebels got only two bottles of wine instead of the winning price - seems to be that the party-organizers had less money than they had expected :)
