How to handle Multiview

Using Multiview (or any other guide-shower) is easy. If you have found the way up to this page, I am sure that you know how to handle this utility. Anyway, here's a small description of the buttons you can click in the upper side.

- Contents    shows the Contents of the part of the guide where you are at the moment of clicking
- Index       brings you back to an indexed content-page, here it is mostly the Main-Menu (Content)
- Help        leads you to this text you are reading now
- Retrace     brings you back to the page which you have read before
- Browse <   leads your way back through the guide, i.e. shows the last node
- Browse >   leads your way further on through the guide, i.e. shows the next node

The Credits

All texts were collected and written copyrighted in 1995 by

Nico Barbat (Dire/Eremation).

Without your help, The Scene would not exist. Therefore I would like to thank all those who supported me in realizing this project, i.e.:

- Jean-Guy Speton for his Eurodemo-Guide with much valuable information. Thanks and don't forget exchanging new information! :)
- Sascha Iwanow (Tiger/indi) for a dozen of lists, reports, descriptions and for his very big software-collection
- Wizard of Subject for his software-list in guide-style (Demos of the World) with many useful party-results
- Lars Sobiraj (Ghandy of Gods) for moral support and some party-results
- Pascal Weitten (Brainwasher of Eremation) for a vast amount of information-texts
- Dirk Wiemer (Chaos! of Desire) for information about Desire and Desire's subgroups.
- Michael Kaufmann (Mic of Principes) for a few pieces of information about various parties
- Chris of Gods for his report about the French scene and French productions
- Edwin van Rijn (MSW of Effect) for information about Effect and other groups
- Marc Moysich (Celeborn of TDD) for information about The Dark Demon and Action.

## 1.10 History

The History

Version : V1.0  
Released: 11th November 1995 (Amiga Exposition '95)  
Size : 336.516K  
Comment : well, just read it! :)

The Future

The guide will be updated about every 4th month, so there will be 3 issues in a year, one in January (after The Party in Denmark), one in May (after The Assembly) and one in August (after The Gathering). The issues will from now on be called 1/96, 2/96, 3/96, 1/97, 2/97, 3/97, 1/98 and so on (for a better orientation).

---

I have much more texts which will be used in this guide, so expect The Scene to grow a lot in the future (this depends on your support too!). An exact overview of all releases and a time table of all parties will be added either as well as the layout will be improved a lot (sorry, I had no time to make this guide more beautiful, because the Exposition moved nearer and nearer). Then again, more information will be pressed into each party, like visitors, prices, extra events and much more. As soon and as far as possible we will include a short description of the productions (e.g. what happens in the demo, what music-style is offered in the sounddisk, etc.) ... be surprised or be dead! :-b

## 1.11 Where can I order these demos?

WHERE CAN I GET THIS DAMN STUFF FROM?

The most of the productions listed in The Scene can be found in the Aminet or Funet. Meanwhile the Aminet administrators and several distributors are selling CDs containing this material as well, such as the Aminet CDs or the Euro-Demo-CDs from Almathera (PD-Distributors).

If you, by chance, can't get your hands on a demo you would like to call your own, you can contact us for getting information like addresses of distributors or exact net sites. If possible (i.e. if we have the wanted production) we are also willing to copy this for you, but please notice that we are no cheap source for getting demos from. So if you would like to receive a demo, then send the disks being needed for it plus the stamps for sending your letter back. And please notice that the maximum disk number we will copy for you is 5 disks (except if a production needs more disks, like Suburban Base's musicdisk) ... We are sorry for these conditions, but we are no millionaires and we don't want to hang loose behind our computers the whole day. :)

We also plan to release about 2,5Mb of the best scene stuff on CDs for a price of 30 DM each. If you want to order one of those CDs or request a catalogue, don't hesitate to send me a short mail. (Author's Address).

## 1.12 Where can I order the next update of The Scene?

Where can I order the next update of The Scene?

If you want to get the next update of The Scene please send 3 DM (or 2 US\$) (foreigners send 4DM/3US\$) and you will soon find a brand new disk with the latest update in your mailbox.

## 1.13 How to support The Scene

How to support The Scene

This guide needs your help! As I am not able to get all scene releases at all I have to relay on the support and help of you. I am always in search for further and concrete information or corrections of the old entries plus information about new productions or parties (like your own lists, party reports, competition results, reviews, articles or what so ever). If you send information (at least 5Kb of plain ascii) you will get the next updated version for free (please send a disk) and your name will be added to the honorable credits! [Author`s Address]

## 1.19 What is <The Scene>?

What is The Scene?

This guide was written and compiled for the purpose to unite all releases from the important Amiga-Scene-Parties into one list, mainly as a small orientation for everybody who collects or searches for special productions or for productions from special groups or who wants to gather information (like hardware requirements, single producers or what so ever) about a special production. I hope this guide is helpful for at least some of you :)

This guide does not include:

- pack series (rarely own group's file demos collections)
- mag-parts of any pack series
- any productions including nazi-propaganda
- sounddisks just playing a module with no code and GFX
- cheat disks, doc disks or solution disks
- games or game-clones
- tools or tool-clones
- the most of those ugly hardcore demos and slideshows
- various private module or slideshow collections
- any stuff (PD-series) from commercial PD-distributors.

Productions in this guide are only pure ...

- file demos (dentros)
  - disk demos (megademos, trackmos)
  - intros
  - packmenu previews
-

- diskmags
- sounddisks
- slideshows.

I hope that you can find use for this guide and that you are thinking about supporting me in the further development. Thanks in advance!

Sounder : Chromag

Remark : two versions available: for MC68020 and MC68030

Remark : Demo was originally no. 1 at Doom's Day Party 1994, but rules stated that the demo must work on a standard A1200 (demo supported MC68030, but worked on a A1200 MC68020 too!). So Rebels got only two bottles of wine instead of the winning price - seems to be that the party-organizers had less money than they had expected :)
