       Welcome to the Third edition of the aRt mAGAZINe, the one and only
                official magazine for the (azcii) art scene.

.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO$^2 ↩

   rOadhOgz [RDZ], the first (and only) 0-1 day art couriering group in the
       scene was formed March 1995 in Holland, by =zEn= and sATAN'S FIRe.
  The art scene is getting bigger and better each day. Art groups like E^D,
 aC! and P^A released quite a lot of work lately, but the thing is that the
 spreading of these packs wasn't organized too good, or better said, mostly
  not organized at all. We decided to change that. More and more boards are
  supporting ascii art, coz they realize that packs are getting more popular
  every day... Y'all must admit that it's kinda fun watching the work of an
   artist; the effort and work most artists put into their packs is amazing.

    rOadhOgz is in need of FAST couriers / suppliers, who like the product
   (azcii packs 'coz). If you like what we're about, fill in the apply form
 included in the archive. We are NOT looking for Dist sites, all members have
   to courier/supply like everyone else in rOadhOgz. Foreign HQ applications
   will only be accepted when running a 2 node board (with a nice azcii conf
     'coz). We are also looking for a /X-coder ... please apply if you

                              want be the /X coder of rOadhOgz.

   A competition, that is what this magazine is mainly about. Each month
  we will publish the releases of the previous month, together with some
                    information of the artist (& group).

   Also we will publish charts on "best pack", "best artist", "best group"
    and "best art board ever". To compile these charts we need YOUR help.
  Included in this archive you will find a VOTE-SHEET. Use this vote-sheet
    to let us know what you think of last months releases. More info on
            how to vote / where to place the sheet can be found
                   in the vote-sheet [VOTE.NOW] itself.

    Please note that you will now have the vote for packs release during
     the current month and NOT for packs released the previous month !!

 .oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO$^2 ↩
      $Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.

     You will find quite a lot of information on the ascii-art groups in
     the aRt mAGAZINe. We know for a fact that we do not have a complete list
   of all groups with all information. It takes a lot of work (a real lot of
  work ;) to collect the info we need for the aRt mAGAZINe. We have included
   an ARTIST INFO FORM in this archieve. Please do us a favour and fill out
    the form [ARTIST.NFO], -so- we will be able to publish the correct and
       lastest information regarding your group. More info on how to fill
      in the form / where to place the form can be found in the form itself.

          -    -- --- --=/|=[% nEWs & iNFo %]=|/=-- --- --   -

   News, gossip and all kinds of info about the art scene will be published in
    the mag as well. If you have a contribution (news or a gossip) that you want
  to see published, use the remarks part in the vote sheet (no adverts!). Please
       note that you will have to fill out the voters info part if you want
          anything published. We do NOT publish anonymous contributions!

 .oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.oO$^2 ↩
      $Xx.xX^{2}Oo.oO^{2}Xx.xX^{2}Oo.

     The aRt mAGAZINe has also a section with guest contributions with news,
    historical information, gossip, future plans etc. etc. If you wish to see
    an article published (may also be non-group related, but must concern the
    art scene!), please leave me a file-attached message (boards stated below).
       We will try not to edit the contributions, but if you plan to enter a
      contribution just to sicken other groups ... well do I need to say more?

        Qube, Jabbah, GML and Skorpio are no longer hOggers because of

inactivity. Lucifuge has taken some time of. We hope he will return soon!
It seems that only the true art lovers remain (Lucifuge is still a
member). I was hoping that leading a group like rOadhOgz would
not be as complicated as leading a major warez group. But I was wrong.
Unfortunately people are joining groups just to be in a group.

Diablo's (also a RDZ senior) board The Payoff has now =3= nodes
... Congrats m8 and thanks for compiling the guide
version of the aRt maGAZINe.

This time we have succeeded in releasing the July issue in time.
For this issue we even received more votes. It seems that there are
quite a lot of people (more then I expected) who wish to express their
simpathy towards the ascii scene. Thanks to you all.

Someone asked me to make an ascii dictionairy. Well, I didn't quite
understand what he was on about, but I must say that the language
in the collies is not always very clear (but that makes it worth
reading mostly ;). Anyway, as I am an old fart, I have got a nice one
for you all on a verb thats being used a lot.

Back to college ....

Lesson 1 – Widening your vocabulary

```
              ----------------------
                     ' FUCK '
              ----------------------
```

Perhaps one of the most versatile words in the English Language today is
the word 'FUCK'. It is a magical word. Just by its sound you can describe
pain, pleasure, love, hate etc... In language, fuck falls into many
grammatical categories. It can be used as a verb both intransitive.
(John fucked Mary) and transitive (Mary was fucked by John) as an adverb
(Mary is good fuck) and as an adjective (Mary was fucking beautiful).
As you can see there are not many words with the versatility of 'FUCK'

Besides the sexual meaning of the word, there are also the following:

```
Greeting               :   WHere the fuck have you been?
Farewell               :   Fuck off.
Fraud                  :   I got fucked with my leech subscription.
Dismay                 :   Oh! Fuck it.
Trouble                :   Well, I finally fucked up.
Aggression             :   You can get fucked.
Difficulty             :   I don't understand this fucking style.
Demotivation           :   Fuck the scene.
Displeasure            :   What the fuck is going on here?
Incompetence           :   He fucks everything up.
Lost                   :   Where the fuck are my requests?
Retaliation            :   Sort that fucker out.
Protest                :   You've got more chance of being struck
                           by fucking lightening.
```

             Remember General Custer's famous last words:
             'Where did all the fucking Indians come from?'

         Also the last words of the Mayor of Hiroshima:
                    'What the fuck was that?'

     And finally, the immortal words of the Captain of the Titanic....
               'Full speed ahead and fuck the icebergs.'

Back to a down to earth subject. The vote door is still not finished yet.
    Whirlwind could not code the door coz' of lack of time. Crew-1 took
      over from him and hopefully the /X version will be released as a
            smashing door soon. Also the PC versions have not been
                 released yet, but that will happen any moment now.

 As the vote-doors will probably be finished this month, we need boards that
  will install the door, so users will be able to vote online. If you are
     willing to install the door, please leave me a message, -so- we can
                              work things out

       whatever) leave me a message, -so- we can update the information
 in the magazine. With the December issue we plan to publish a (half-)year
best artist/pack/group chart. This means everlasting fame for the winners ;)

    I would like to thank everyone that helped making this magazine to
       what it is today. It is a lot of work to compile the magazine,
             but it's also a lot of fun (most of the times ;).

                        EPSILON^DESIGN

                         History:

   E^D started out as a small project by me and SANDMAN in the autumn '93.
 By then, the name EPSILON^DESIGN wasn't even thought of, and we had it as
 a small hobby. A few weeks after we started the group, HARPOON joined us
and came up with the name EPSILON^DESIGN. MAMMOTH joined in, and we started
 releaseing a few collections. Among the first things to be released was a
  co-op collection staring HARPOON and MAMMOTH and it was in .guide format.
  Then it all came to life, FATAL and CHROMBACHER joined us.. We also had
  some other artists but they never stayed for any greater amount of time.

       When I opened my board I became the leader (we never had any true
    organisation before that!). The E^D project started to become the E^D of
    today. More artists joined in. Then I didn't have more time to org. the
    group, so SANDMAN took over and I quitted the ascii-scene. FRAME joined
          us a few months prior to my departure from the ascii scene.

   During that period many collections was released, CRAZY and STASH joined
   our crew. SPLAT (as he was called back then, nowdays he's called DESOTO)
   joined. And I returned to the ascii scene. I Started co-organising with
            SANDMAN and we released more and more collections.

 Recently CRUSADER joined us and we're still looking for more talanted ascii
    artists. TWISTER joined with his board as the E^D Shq a few weeks

                         Goals:

   EPSILON^DESIGN is basicly a friendship crew trying to bring out good quality
   ascii collections. We are quite restrictive when it comes to new members, we
   want to maintain the highquality label that the group has recived. We also
            try NOT to offend anyone with bad attitudes.

                         Future:

   We are all having a little vacation during the summer, but for sure we have
   some new cool projects lined up. All members are constantly working on colls
   and orders, but right now we're having our summer break, so don't expect too

```
                many collections this summer.. We'll be back in full
                         effect right after it though.

                                  Joining:

        To join E^D you either talk with me or with SANDMAN on any of our boards.
        Then upload some samples of your work, and then the E^D members are able
                         to vote if we should let the new guy join us..

      So.. If you are in anyway intrested in E^D, call any of our HQ's and write us
              a message, we'll try to answer your question the best way we can..

                                                     ..jUAN/e^D lEADER!

I've been asked to write some information about Honey and the ascii within
the group.. So, here we go!

Honey was formed out of two and a half groups in February '95.

One part was a fast expanding trader-group named ISDN, formed very recently
in January same year.. ehm.. this year.

The second group was Squash Sweden which crashed due to inactivity and bad
organization between the Swedish and the Norwegian division (I became a
member of Squash after Solitude was put down when our coders got this idea
of making games instead of scene-productions).

The half one, was the one mentioned above, former Solitude, with the coders
that now had got their minds back to their senses.

We got a big amount of members (more and less active) to form a steady group.
And so we did. We've two organizers to get control and try to let the
information flow in the group, and we're growing rapidly.

The most active doods in the group are probably our ascii-artists. And I
think many people are seeing Honey mostly as an Ascii/Trader group while
our demo-producing has become quite slow (we are always working on our work
though. We will show you what we've got later on).

The AscII-Artists in Honey at the moment (this was supposed to be about the
ascii-artists i think).

```
                    GOZZ              - AscII-Artist
                    PAD               - AscII-Artist, Graphician
```

```
                    U-MAN           - AscII-Artist, Trader
                    MISFIT          - AscII-Artist, Trader
```

We're not established as a known AscII-Group, but will try to enter the ascii
          scene. Not as an Ascii only group, but with our artists,
                        a partly ascii art group.

              We're always looking for more AscII-Artists to join our crew,
                            all over the world.

                        a full memberlist of Honey follows..

                              %%% . HONEY . %%%

              The following section contains all kinds of information on
              ascii groups we could get our hands on. Please note that
              we do NOT publish a coder, sysop or whatever non ascii art
              related function someone might have as a member. As this is
              an magazine for the art scene we have chosen to publish the
                              artist members only!

              If any information is incorrect please let us know, -so- we will

      This was the third issue of the aRt mAGAZINe. We hope this mag
        is a contribution to the art scene. We are aware that there
         might be information in this magazine that is not correct.
          Making this magazine is a lot of work. We hope you will
           supply us with the latest information concerning your
           group/pack etc. Also I would like to ask all artists to
          promote the aRt mAGAZINe in your pack and ecourage fooks
           to vote. Support the art scene, it's a scene that will
                  last forever. The next mag will be released
                  approx the 5th of August 1995 ... let's paint!
