ShowPath was written out of my frustration to get a fully
qualified file listing which I could edit and use as
an EXECUTE script file to cleanup my hard drive.

This program is FREE to the public domain. You may freely
distribute it as long as it remains unchanged and this
file stays with the ARC file.

For execution instruction type "ShowPath ?" at the
CLI prompt.

Enjoy

P.S. any problems/comments can be reported to PLINKid JPB.
