

ANNEX 300-B

Textile and Apparel Goods

Section 1: Scope and Coverage

1. This Annex applies to the textile and apparel goods set out in Appendix 1.1.
2. In the event of any inconsistency between this Agreement and the Arrangement Regarding International Trade in Textiles (Multifiber Arrangement), as amended and extended, including any amendment or extension after the date of entry into force of this Agreement, or any other existing or future agreement applicable to trade in textile or apparel goods, this Agreement shall prevail to the extent of the inconsistency, unless the Parties agree otherwise.

Section 2: Tariff Elimination

1. Except as otherwise provided in this Agreement, each Party shall progressively eliminate its customs duties on originating goods as provided in its Schedule set out in Annex 302.2, in accordance with Appendix 2.1.

2. (a) For purposes of this Annex, a good shall be considered to be an originating good if the applicable change in tariff classification has been satisfied in the territory of one or more of the Parties, as provided by Article 404.

(b) For purposes of determining which rate of duty and staging category is applicable to an originating textile or apparel good, a good shall be a good of the Party in which the last substantial transformation occurred, according to each importing Party's regulations, practices or procedures or, in the event of an agreement between the Parties pursuant to Annex 312(1), setting out rules applicable to textile and apparel goods for determining whether a good is a good of a Party ("Marking Rules"), according to such agreement.

3. Each Party shall provide duty-free treatment for the following textile and apparel goods of another Party, provided such goods have been certified by the competent authority of the exporting Party as one of the following:

(a) hand-loomed fabrics of a cottage industry;

(b) hand-made cottage industry goods made of such hand-loomed fabrics; or

(c) traditional folklore handicraft goods

that have been identified and agreed by the Parties concerned for duty-free treatment.

Section 3: Import and Export Restrictions and Consultation Levels

1. Appendix 3.1 sets out certain circumstances and conditions under which prohibitions, restrictions, or consultation levels in effect upon the date of entry into force of this Agreement may be maintained, notwithstanding Article 309.

2. Each Party shall eliminate a restriction or consultation level on a textile or apparel good that otherwise would be permitted under this Annex if the elimination of that restriction is required as a result of integration of that good into the GATT pursuant to commitments undertaken by that Party under any successor agreement to the Multifiber Arrangement.

Section 4: Bilateral Emergency Actions (Tariff Actions)

1. During the transition period only, if, as a result of the reduction or elimination of a duty provided for in this Agreement, an originating textile or apparel good, or a good that has been integrated into the GATT pursuant to a commitment undertaken by a Party under any successor agreement to the Multifiber Arrangement and entered under a tariff preference level set out in Appendix 6.0, is being imported into the territory of another Party in such increased quantities, in absolute terms or relative to the domestic market for that good, and under such conditions as to cause serious damage, or actual threat thereof, to a domestic industry producing a like or directly competitive good, the importing Party may, to the extent necessary to remedy the damage or actual threat thereof:

(a) suspend the further reduction of any rate of duty provided for under this Agreement on such good; or

(b) increase the rate of duty on such good to a level not to exceed the lesser of:

(i) the most-favored-nation (MFN) applied rate of duty in effect at the time the action is taken, or

(ii) the MFN applied rate of duty in effect on the day immediately preceding the date of entry into force of this Agreement.

2. In determining serious damage, or actual threat thereof, the Party shall:

(a) examine the effect of increased imports on the

particular industry, as reflected in the following factors, none of which is necessarily decisive: changes in such relevant economic variables as output, productivity, utilization of capacity, inventories, market share, exports, wages, employment, domestic prices, profits and investment; and

(b) not consider changes in technology or consumer preference as factors supporting a determination of serious damage or actual threat thereof.

3. The following conditions and limitations shall apply to any emergency action taken pursuant to this Section:

(a) a Party shall deliver without delay to any Party that may be affected written notice of intent to take such action, and shall enter into consultations with that Party upon request;

(b) no action may be maintained for a period exceeding three years or, except with the consent of the Party against whose good the action is taken, have effect beyond the expiration of the transition period;

(c) no action may be taken by a Party against any particular originating good more than once during the transition period; and

(d) upon the termination of the action, the rate of duty shall be the rate that, according to the Schedule for that staged elimination of the tariff, would have been in effect a year after the commencement of the action, and commencing January 1 of the year following the termination of the action, at the option of the Party that has taken the action:

(i) the rate of duty shall conform to the schedule in that Party's Schedule in Annex 302.2, or

(ii) the tariff shall be eliminated in equal annual stages ending on the date set forth in that Party's Schedule in Annex 302.2 for the elimination of the tariff.

4. A Party taking an action under this Section shall provide, to the Party against whose good the action is taken, mutually agreed trade liberalizing compensation in the form of concessions having substantially equivalent trade effects on the other Party, or equivalent to the value of the additional duties expected to result from the action. Such concessions shall be limited to the textile and apparel goods listed in Appendix 1.1, unless the Parties otherwise agree. If the concerned Parties are unable to agree on compensation, the exporting Party may take tariff action having trade effects substantially equivalent to the action taken under this Section against any goods imported from the Party that initiated the action pursuant to this Section. The Party taking

such tariff action shall only apply it for the minimum period necessary to achieve such substantially equivalent effects.

Section 5: Bilateral Emergency Actions (Quantitative Restrictions)

1. Notwithstanding any other provision of this Agreement except Appendix 5.2, a Party may take bilateral emergency action against non-originating goods of another Party in accordance with this Section and the provisions of Appendix 3.1.

2. If a Party considers that non-originating textile and apparel goods, including goods entered under the tariff preference levels (TPLs) set out in Appendix 6.0, are being imported into its territory from a Party in such increased quantities, in absolute terms or relative to the domestic market, so as to cause serious damage or actual threat thereof, to a domestic industry producing a like or directly competitive good in the importing Party, that Party may request consultations with another Party with a view to eliminating the serious damage or actual threat thereof.

3. The Party requesting consultations shall include in its request for consultations the reasons that it considers demonstrate that such serious damage or actual threat to its domestic industry is resulting from the imports of the other Party, including the latest data concerning such damage or threat.

4. In determining serious damage, or actual threat thereof, the Party shall apply the provisions of paragraph 2, Section 4.

5. The concerned Parties shall commence consultations within 60 days following the request for consultations and shall endeavor to agree on a mutually satisfactory level of restraint on exports of the particular good within 90 days of the request, unless the consulting Parties agree to extend this period. In reaching a mutually satisfactory level of export restraint, the consulting Parties shall:

(a) consider the situation in the market in the importing Party;

(b) consider the history of trade in textile and apparel goods between the consulting Parties, including the previous levels of trade; and

(c) ensure that textile and apparel goods imported from the territory of another Party are accorded equitable treatment as compared with treatment granted to other non-Party suppliers of like textile and apparel goods.

6. If the Parties do not agree on a mutually satisfactory level during the 90-day consultation period, the Party requesting consultations may impose annual quantitative restrictions on

imports of the good from the territory of the other Party for a period no longer than that provided for in paragraph 9, provided that:

(a) the measure shall not have effect beyond the transition period; and

(b) the quantitative restriction shall not be less than the sum of

(i) the quantity of the good imported into its territory from the Party that would be affected by the restriction, as reported in general import statistics, during the first 12 of the most recent 14 months preceding the month in which the request for consultations was made, and

(ii) an additional 20 percent of such quantity for cotton, man-made fiber and other non-cotton vegetable fiber good categories and six percent for wool good categories.

7. The first term of any quantitative restriction imposed under paragraph 6 shall commence on the day following the request for consultations and terminate at the end of the calendar year in which the quantitative restriction was imposed. Any quantitative restriction that is imposed for a term less than 12 months and the applicable flexibility provisions shall be prorated to correspond to the period of time remaining in the calendar year in which the restriction is imposed.

8. For each successive calendar year that the quantitative restriction imposed under paragraph 6 remains in effect, the Party imposing it shall:

(a) increase by 6 percent restrictions on cotton, man-made fiber and non-cotton vegetable fiber textile and apparel goods and by 2 percent restrictions on wool textile and apparel goods;

(b) accelerate the growth rate for quantitative restrictions on cotton, man-made fiber and non-cotton vegetable fiber textile and apparel goods if required by any successor agreement to the Multifiber Arrangement; and

(c) apply the flexibility provisions set forth in Appendix 3.1, as appropriate.

9. Quantitative restrictions established pursuant to paragraph 6 before July 1 in any given calendar year may remain in place for the initial prorated period in the first calendar year, plus two additional calendar years. Such restrictions established on or after July 1 in any given calendar year may remain in place for the initial prorated period plus three additional calendar years.

10. No Party may take an emergency action under this Section with respect to any textile or apparel non-originating good that is already subject to a quantitative restriction.

11. No party may adopt or maintain a quantitative restriction under this Section on a textile or apparel good if that good has been integrated into the GATT as a result of commitments undertaken by that Party pursuant to any successor agreement to the Multifiber Arrangement.

12. A Party may take a bilateral emergency action after the expiration of the transition period to deal with cases of serious damage to domestic industry arising from the operation of this Agreement only with the consent of the Party against whose good the action would be taken.

Section 6: Special Provisions

A Party shall treat the textile or apparel goods of another Party set out in Appendix 6.0 in accordance with the provisions therein.

Section 7: Review and Revision of Rules of Origin

1. (a) The Parties shall monitor the effects of the application of the rule of origin contained in Annex 401.1 applicable to goods of subheading 6212.10. No earlier than 15 months after the date of entry into force of this Agreement, any Party may request consultations to seek a mutually satisfactory solution to any difficulties that it considers results from the application of that rule of origin.

(b) If the Parties fail to reach a mutually satisfactory solution through consultations within 90 days of a request for consultations, any Party may request that the rule applicable to subheading 6212.10 be changed to the rule applicable to headings 62.06 through 62.11 of the Harmonized System (HS) with respect to trade with the requesting Party. Any such change shall be effective no earlier than 180 days following the request therefor. The Parties shall take measures to ease any resulting administrative burden on producers.

(c) Unless otherwise agreed, at any time after the initial consultations, and within the transition period of this Agreement, any Party may make one request for additional consultations under the same procedures provided in paragraphs (a) and (b).

2. (a) At the request of any Party, the Parties shall consult to consider whether specific goods should be made subject to different rules of origin in order to

address issues of availability of supply of fibers, yarns or fabrics within the free trade area.

(b) In the consultations, each Party shall consider all data presented by a Party showing substantial production in its territory for a good submitted for review. A legitimate claim of substantial production of the good in the territory of a Party shall be deemed to exist if that Party can show that its domestic producers are capable of supplying commercial quantities of the good in a timely manner.

(c) The Parties shall make every effort to conclude consultations within sixty days. Any agreement between two or more Parties resulting from these consultations shall be considered part of this Agreement. If agreement is not reached, the Parties have recourse to the provisions of paragraph 8(a) of Appendix 6.6.

(d) In this context, at the request of any Party, the Parties shall consult to consider whether the rules of origin applicable to the following provisions in Annex 401.1 should be amended in view of increasing availability of supply of relevant yarns or fabrics within the free trade area;

(i) Canadian tariff item 5407.60.10, United States tariff item 5407.60.22 and Mexican tariff item 5407.60.02,

(ii) provisions (i) through (viii) of the rule for subheadings 6205.20 through 6205.30,

(iii) note 2 to Chapter 61,

(iv) note 2 to Chapter 62, and

(v) Canadian tariff item 6303.92.a1, United States tariff item 6303.92.h1 and Mexican tariff item 6303.92.x1.

3. The Parties shall review the rules of origin applicable to textile and apparel goods within five years after the date of entry into force of this Agreement to take into account the effect of increasing global competition on textile and apparel goods, and the implications of any integration into the GATT of textile and apparel goods pursuant to any successor agreement to the Multifiber Arrangement. The Parties shall give particular consideration to operative rules in other economic association or integration agreements and developments related to textile and apparel production and trade between the Parties and worldwide.

Section 8: Labelling Requirements

To facilitate trade in textile and apparel goods between the

Parties through the harmonization of domestic labelling requirements and the elimination of unnecessary obstacles to trade resulting from differences in such requirements, the Subcommittee on Labelling of Textile and Apparel Goods established under Article 913(5) shall perform the functions set out in Annex 913-D.

Section 9: Trade in Worn Clothing and Other Worn Articles

1. The Parties hereby establish a Committee on Trade in Worn Clothing comprising representatives of each Party. The purpose of the Committee shall be to assess the potential effects that may result from the elimination of restrictions, maintained by a Party prior to the date of entry into force of this Agreement, on trade in worn clothing and other worn articles as defined in the heading 63.09 of the HS. This Committee shall:

(a) include or consult with a broadly representative group from the manufacturing and retailing sectors in each Party; and

(b) act in a transparent manner and reach recommendations by consensus of all representatives involved.

2. The Committee shall develop and pursue a work program to consider the potential benefits and risks that may be derived from the elimination of restrictions on trade between the Parties in worn clothing and other worn articles, including the effects on business and employment opportunities, and on the market for textile and apparel goods in each Party.

3. Notwithstanding Article 309 and paragraph 2 of Section 3, a Party may maintain restrictions in effect upon the date of entry into force of this Agreement on the importation of worn clothing and other worn articles classified under heading 63.09 of the HS, unless the Parties agree otherwise on the basis of the recommendations presented to the Commission by the Committee on Trade in Worn Clothing.
