

The Settings Panel

The settings panel is the command center for BackSpace. It is visible when BackSpace starts, or can be activated from the main menu:

paste.tiff ↵

90072_paste.tiff ↵

The settings panel contains:

- ;ModuleBrowser.rtf;;↵ A screen saver module browser
- ;WindowButtons.rtf;;↵ A window selector
- ;LockerSaver.rtf;;↵ A screen locker toggle
- ;LockerSaver.rtf;;↵ A screen saver toggle
- ;Priority.rtf;Inspector;↵ A module-specific inspector
- ;Priority.rtf;;↵ A priority slider
- ;LockerSaver.rtf;HotCorner;↵ A hot-corner selector

Click the link button next to any of the above topics for additional information about a BackSpace feature.
