**NOVA CDROM for NeXT Computers now available.**

Walnut Creek, Calif., February 3, 1993 - Walnut Creek CDROM today announced the availability of it's NOVA CDROM for NeXT Computers. NOVA is a Rock Ridge format CDROM which contains public domain, shareware and commercial demo's. This disc is a treasure chest filled with the top quality NeXT applications and files which are presently available from the major archive sites. This disc is arranged in such a way as to take full advantage of the NeXT Computer and it's CDROM drive. We think that it will become permanently inserted in your CDROM drive. A valued addition to your CDROM collection.

You will find on this disc a wide range of applications and files. Examples are: Utilities, communications, graphics, the largest collection of NeXTSTEP games presently available. The disc also contains fonts, sounds, music, PostScript and tiff graphics, documents and text files about many different subjects. We have also included a directory for users of the SoftPC application. Plus many other files to numerous to mention here. Each directory on the disk contains an index listing filename, version, author and a short description of each file. A central index is also included which can be used with Digital Librarian to quickly locate the file your looking for. NeXTSTEP 3.0 is required to use this disc.

NOVA is available immediately from Walnut Creek CDROM at a retail price of \$39.95.
