## **feature attractions**

### **options in e-mail from home**

Your choices in home e-mail, including setup, the learning curve, and costs-plus specifics about command-line mail

### **when one server isn't enough**

Ways you can restructure your network to add mail servers if using your root NetInfo server as the mail server doesn't measure up

### **optimizing virtual memory with swaptab**

About the swapfile configuration, the swaptimizer, multiple swapfiles, and how a bit of customizing may improve a system's performance

### **the crash of the master NetInfo server**

What you can do to recover should disaster strike your NetInfo network, from restoring from a clone server to starting over from scratch

### **prowling about in syslog**

A look at how the NeXT message logging system works and how you can customize

it in ways that suit your own needs

## **fsck to the rescue**

How the block I/O buffer cache puts file systems at risk and how fsck can repair a corrupted file system

## **repeat performances**

## **customer education**

A schedule of NeXT courses for developers, system administrators, service technicians, and others

## **tips and techniques**

Notes and hints about font limits and workarounds, WordPerfect, NFSManager, and NetInfo dupes and loops in Release 3

## **fyi**

How to contact NeXT in North America and Europe and how to use the *support bulletin* and NeXTanswers on disk

**electronic production**

NeXTanswers and electronic *support bulletin* administrator: Eric Larson

## **about the support bulletin**

The *support bulletin* is a quarterly technical journal published by NeXTComputer, Inc. Its goal is to provide timely technical information to help you better support your NeXT network or user community.

Each *support bulletin* includes a floppy disk that contains an electronic version of the bulletin and NeXTanswers, a comprehensive library of technical information. The disk is designed to be used with the Digital Librarian application so you can easily access information on specific topics by searching for keywords.

NeXTanswers provides responses to common (and sometimes uncommon) technical questions. Formatted as question-and-answer pairs, topics include system administration, programming, and NeXT applications.

If you'd like to subscribe to the *support bulletin* or inquire about subscriptions, please use the order form called *order\_form.ps* found in this directory.

If you have editorial suggestions or comments, we'd love to hear from you. Please e-mail us at [support\\_bulletin@next.com](mailto:support_bulletin@next.com) or write to:

Managing Editor, *support bulletin*
