

File Attachment

358755_PixelRule.tiff ↗

Use the Attachments inspector to set a node's attachment.

To do this, select the node, choose the Inspector command from the Tools menu and turn to the Attachments inspector. Click the Set Attachment button, and a standard file viewer panel is raised with a title bar that reads "Set Attachment." Locate the icon of the file that you wish to place in the node, select it and click the OK button.

Back on the Attachments inspector, you can use the Clear Attachment button to erase a node's attachment at any time.
