Release notes

438886_paste.tiff ¬

TaskArrowSm.tiff ¬   The idea is to have a simple application which makes it easy to create iterative grabs from the NeXTdimension hardware.
84846_TaskArrowSm.tiff ¬   For further details please read the *Release Notes*.

291955_PixelRule.tiff ¬

220329_CheckMark.tiff ¬   Select one of the three Dimension input channels and adjust the settings.

782826_CheckMark.tiff ¬   Specify the portion of the video image you want to grab by adjusting the values in the Monitor window.

85923_CheckMark.tiff ¬   Choose the output size by resizing the Ocular window.

613165_CheckMark.tiff ¬   Grab frames by hand on continuously using fps rate.
Attention: Heavy load will crash your machine!

288506_CheckMark.tiff ¬   Store the single frames in a directory and thus become able to creat *.anim* movies.

263805_CheckMark.tiff ¬   Use the "localhost/NDCamera" DO-port to gain remote control of the app (see the included *Example*

sources).

187441_CheckMark.tiff ¬   Should work as advertised.
SimpleSmiley.tiff ¬

53781_PixelRule.tiff ¬
