Future plans

438886_paste.tiff ¬

TaskArrowSm.tiff ¬   The underlying code is a real mess. I don't plan to work on that because this app is a hack¼and inteded to stay that way.
481918_TaskArrowSm.tiff ¬   NeXTIME should bring in some more interesting possibilities.

291955_PixelRule.tiff ¬

What's next:

194699_CheckMark.tiff ¬   Make this app a slow NeXTIME frame source.

304932_CheckMark.tiff ¬   Handle existing files in a smarter way. Which means that it should append images to existing movies etc.pp.

583087_CheckMark.tiff ¬   Work on really good images for the UI. Space doesn't count because the app has to run in 24Bit anyway.

119544_CheckMark.tiff ¬   ...for more ideas please read the documentation.
