CEListener

Inherits From:	Listener
Declared In:	CEListener.h
Depends On:	CEAppManager.h

Class Description

Now this is our private listener class to support the communication with ProjectBuilder and Sight-C-ing. Listerner stuff is really stupid and I hope everything will be removed in Openstep in favour of DO connections. They are a lot simpler to set up.

Instance Variables

id **firstID**;
id **secondID**;

firstID	Just a temp.
secondID	Another temp.
