

```
//
// FILENAME: eTDocInfoUI.h
// SUMMARY: Inspector/Controller for eText-based eTDocInfos
// SUPERCLASS: Object:eTDocInfoUI
// PROTOCOLS: <Inspectable>
// INTERFACE: eTDocInfoUI.nib
// AUTHOR: Rohit Khare
// COPYRIGHT: ©1993,94 California Institute of Technology, eText Project
//
// Description
// The controller has a "universal panel" for configuring the required
// fields of eTDocInfo and a tagging panel for manipulating the fonts used
// to denote logical markup.
//
// HISTORY
// 10/04/94: Revamped for eText5; renamed eTDocInfoUI
// 05/23/94: TaggingPanel support added for HTML/LaTeX inversion
// 01/15/94: Created for eText4.0. Borrows from DocInspector in eText3.0
//
// Imported Interfaces
//
// #import "eTDocInfo.h"

@interface eTDocInfoUI:Object <Inspectable> {
