

```
//
// FILENAME: InfoController.m
// SUMMARY: Implementation of the InfoController class, runs the Info menu
// SUPERCLASS: Object:InfoController
// PROTOCOLS: None
// INTERFACE: InfoController.nib
// AUTHOR: Rohit Khare
// COPYRIGHT: ©1993,94 California Institute of Technology, eText Project
//
// Implementation Comments
// Loads its nib from its init method.
//
// HISTORY
// 10/31/94: Added PostcardWare reminder.
// 09/27/94: Revamped for eText5; renamed InfoController
// 08/18/93: Created as InfoPanel
//
// Imported Interfaces
//
// #import "InfoController.h"
// #import "Router.h"
//
// @implementation InfoController
//
// Class Management
//
// - init {
//     char version[256];
//
//     [NXApp loadNibSection:"InfoController.nib" owner:self withNames:NO];
//     sprintf(version, "%s: ver.%s. Compiled " __TIME__ " " __DATE__,
//             [NXApp appName], [NXApp versionStr]);
//     [vField setStringValue:version];
//     return self;
// }
//
// Actions
//
// - showInfo {
//     [iPanel makeKeyAndOrderFront:self];
//     return self;
// }
//
// - showCopyright {
//     [cPanel makeKeyAndOrderFront:self];
//     return self;
// }
```

}
