//
// Description
//
//      This is the hook that will be called precisely once for the principal
//      Class of any bundle loaded into eText; this method should register the
//      user-interface for any objects in a tool.
//
//      Tool types include: .annotation, .accessory, .agent, .tool, .bundle, and
//      .disabled.
//
// HISTORY
// 09/27/94:  Revamped for eText5
// 01/11/94:  Created.
