

Open an existing document

358755_PixelRule.tiff ↵

01_12ptHevBlk.tiff ↵ Choose File from the main menu.
770678_12ptHevBlk.tiff ↵ Choose Open from the File menu.
850350_12ptHevBlk.tiff ↵ In the Open panel, select the file or files
you want to open. 04_12ptHevBlk.tiff ↵ Click OK.

OpeningExistingDoc.tiff ↵

684996_PixelRule.tiff ↵

919766_CheckMark.tiff ↵ You can use the Open panel to open a
file while you're working in Emacs. The Open panel has a
browser that lists the files Emacs can open.
172630_CheckMark.tiff ↵ Instead of selecting the file you want to
open in the browser, you can type its pathname. If the file is

further down the branch of the file system from the folder that's currently open in the panel, you need to type only the part of the pathname that begins with a name in that folder.

873490_CheckMark.tiff ⇐ You can double-click a file in the browser to open the file without having to click OK.

550711_CheckMark.tiff ⇐ You can open more than one file by selecting all the files you want to open and then clicking OK.
