CheckMark.tiff ↵ Quitting Emacs puts away all its buffers.

919977_CheckMark.tiff ↵ If you have any unsaved buffers open when you choose Quit, Emacs asks you if you want to save your changes.

610718_CheckMark.tiff ↵ If you think you may want to edit another file later in your work session and just want your Emacs windows out of the way, it's better to hide Emacs than quit it.
