

Hide Emacs

3PixelRule.tiff ↗

TaskArrowSm.tiff ↗ To hide the Emacs application, choose Hide from the main menu.

711037_TaskArrowSm.tiff ↗ To unhide Emacs, double-click its application icon.

1PixelRule.tiff ↗

CheckMark.tiff ↗ Hiding Emacs removes all its windows from view while Emacs continues to run.

610718_CheckMark.tiff ↗ When you unhide Emacs, all its windows reappear and the application is activated, just as though it had never been hidden.
